are found in every chapter and are listed in the chapter opener called out in the margin where the theme is addressed and summarized in a Summary of Developmental Themes section at the end of the chapter. The five themes explore nature and nurture, sociocultural contexts, continuous vs. discontinuous development, the domains of development, and risk or resilience in development. Extensive Contexts of Development chapters for each development stage broaden the scope of the issues discussed by examining the child/adolescent within the context of family, peers, and community. Research Applied to Parenting Education boxes provide practical advice based on research findings and cover such topics as reducing SIDS, monitoring TV viewing, reciprocal teaching, and reading to children. Atypical Development sections focus on topics related to non-normative development, including eating disorders, autism, attention deficit disorder, detecting hearing loss, depression, conduct disorders, and post-traumatic stress disorder (PTSD). Summary Tables are two-page graphic timelines that summarize the various milestones of development and show the sequence of the child's development within a given domain: infancy, early childhood, middle childhood, adolescence. Chapter Opening Vignettes draw students into real-life scenarios by applying and exploring concepts of development. Marginal features See for Yourself and What Do You Think invite students to critically evaluate and explore further related material on the Online Study Center. Additional pedagogy includes section summaries within each chapter and comprehensive Chapter Recaps that feature a Summary of Developmental Themes, a Chapter Review, and a list of Key Terms and Concepts.
