Place Apart The Cape Breton Story:

Cape Bretoniana Beaton Institute of Cape Breton Studies, 2005-01-01 Nova Scotia s Cape Breton Island is a beautiful region with a unique community whose history and ethnic composition have resulted in the evolution of a powerful sense of identity and place While outsiders may think only of the island s perennial economic woes and long economic dependence on coal mining and steel production it is also the home of a rich vibrant and distinct culture Brian Douglas Tennyson s *Cape Bretoniana* is the first bibliography to gather together all known publications relating to the history culture economy and politics of Cape Breton Island With more than 6000 entries it not only provides a comprehensive listing of publications and post graduate theses but also detailed annotations on the listings Each entry lists the author title place of publication publisher date of publication volume and issue number in the case of periodicals and page references followed by a brief description of the item Cape Breton has never been so thoroughly documented This bibliography will help to ensure that even in a world becoming increasingly homogenized by the forces of globalization unique cultural identities like Cape Breton s can be preserved and nurtured *A Place Apart* James Barrett Lamb, 1988 *Cape Breton Portfolio* Warren Gordon, 1991

Discover Nova Scotia Gr. 5-7 , The Notion of Near Islands Nenad Starc, 2020-09-30 Viewed from the mainland the history of the archipelago appears as a long list of non invited but irresistible disembarkations Viewed from on an island the archipelago has had a rich and unique history of sustainable use of scarce resources The main theme of this book is the exploration of the meanings of near islands of the archipelago General and particular features of 1 246 islands of the Croatian archipelago are starting points of stories about particular islands subarchipelagos and urban archipelagos The chapters question and analyse the archipelago identity from different perspectives Approached as a group of islands the analysis investigates features of subarchipelagos urban subarchipelagos mainland dependent islands outlying islands and island emigrant communities that are trying to restore and conserve their island This book highlights the identity and identities of the archipelago as both complex and multidimensional The Nova Scotia Genealogist , 1990 **The Island** Kenneth Joseph Donovan, 1990 An informal personal history by one of the most respected and beloved regional historians of the Maritimes Insights into schooling and society family and church the outdoors and the universities all of which shaped his character and his work Edited and introduced by former student Stephen Dutcher and featuring a conversation with historian John G Reid Re-exploring Canadian Space Jeanette M. L. den Toonder, Bettina van Hoven, 2012 A variety of productions and representations of Canadian identities are the central theme that runs through this book The different contributions explore imagined spaces by considering Canadian music poetry and novels they engage with political space by addressing various ways in which the people of Canada have made claims to different regions in the distant and recent past and they address lived spaces and their actual and symbolic meanings It is an unusual book as it encompasses the writings by those studying the arts and literature as well as writings by social scientists and it includes both English and French speaking

scholars The richness that can be found in this multitude of perspectives and approaches to exploring Canadian space is characteristic of the way in which Canadian Studies is practiced nowadays It is therefore an appropriate volume to celebrate 20 years of Canadian Studies in the Netherlands **International Books in Print** ,1991 Canadian Books in Print ,1998
