Place Called Grand Canyon Contested Geographies:

Lost in Space Rob Kitchin, James Kneale, 2005-10-23 Science fiction one of the most popular literary cinematic and televisual genres has received increasing academic attention in recent years For many theorists science fiction opens up a space in which the here and now can be made strange or remade where virtual reality and cyborg are no longer gimmicks or predictions but new spaces and subjects *Lost in space* brings together an international collection of authors to explore the diverse geographies of spaceexploring imagination nature scale geopolitics modernity time identity the body power relations and the representation of space The essays explore the writings of a broad selection of writers including J G Ballard Frank Herbert Marge Piercy Kim Stanley Robinson Mary Shelley and Neal Stephenson and films from *Bladerunner* to *Dark City* *The Fly* *The Invisible Man* and *Metropolis*

Explorations in Place Attachment Jeffrey Smith, 2017-11-09 The book explores the unique contribution that geographers make to the concept of place attachment and related ideas of place identity and sense of place It presents six types of places to which people become attached and provides a global range of empirical case studies to illustrate the theoretical foundations The book reveals that the types of places to which people bond are not discrete Rather a holistic approach one that seeks to understand the interactive and reinforcing qualities between people and places is most effective in advancing our understanding of place attachment

A Place Called Grand Canyon Barbara J. Morehouse, 1996-02 For most people Grand Canyon signifies that place of scenic wonder identified with Grand Canyon National Park Beyond the boundaries of the park however extends the greater Grand Canyon a region that includes five Indian reservations numerous human settlements and lands managed by three federal agencies and by the states of Arizona and Utah Many people have sought to etch their values economic practices and physical presence on this vast expanse Ultimately all have had to come to terms with the limits imposed by the physical environment and the constraints posed by others seeking to carve out a place for themselves *A Place Called Grand Canyon* is an unprecedented survey of how the lands and resources of the greater Grand Canyon have come to be divided in many different ways and for many different reasons It chronicles the ebb and flow of power changes in who controls the land and gives it meaning The book begins with an exploration of the geographies of the native peoples then examines how the westward expansion of the United States affected their lives and lands It traces the century of contest and negotiation over the land and its resources that began in the 1880s and concludes with an assessment of contemporary efforts to redefine the region Along the way it explores how the spaces of the greater Grand Canyon area came to be defined and used and how those spaces in turn influenced later contests among the ranchers loggers miners recreationists preservationists Native Americans and others claiming a piece or all of the area for their own ends The story exposes how dynamic the geographical boundaries of the region really are regardless of the indelibility of the ink with which they were drawn With visitation to Grand Canyon National Park approaching five million people per year pressures on resources are intensifying When the greater Grand Canyon area is considered environmental

management is further complicated by the often conflicting demands of business recreation ecological preservation and human settlement Morehouse invites us to look beyond boundaries drawn on maps to discover what Grand Canyon means to different people and to think more deeply about what living in harmony with the land really entails Her insights will be of interest to geographers and other social scientists including anthropologists and environmental historians and to all who seek a counterpoint to conventional natural histories of the region
