There, at last, is the book for which the youth counselor, counseling professional, has been waiting. It is the up-to-date, comprehensive and extensive text devoted to understanding the theory and practice of placement and placement counseling for disabled persons. Finally, the authors not only present major and yet unanswered theoretical questions, and they pose key questions that are unanswered in the literature of the field. They also review pertinent laws and legislative trends, describe coverage of placement counseling in education, counseling, the program and the counselor's role, present a new, exciting, pragmatic, distinctive, and innovative approach to the placement counseling, detail a new approach to the book of service, and present a unique perspective on individual, practical, and theoretical issues of placement counseling for disabled persons.
