Planet Architecture:

Thinking in the World Jill Bennett, Mary Zournazi, 2019-12-26 Engaging with contemporary issues responsibly and creatively can become a very abstract activity We can sometimes find ourselves talking in terms of theories and philosophies which bear very little resemblance to how life is actually lived and experienced In *Thinking in the World* Jill Bennett and Mary Zournazi curate writings and conversations with some of the most influential thinkers in the world and ask them not just why we should engage with the world but also how we might do this Rather than simply thinking about the world the authors examine the ways in which we think in and with the world Whether it's how to be environmentally responsible how to think in film or how to dance with a non human the need to engage meaningfully in a lived way is at the forefront of this collection *Thinking in the World* showcases some of the most compelling arguments for a philosophy in action Including wholly original never before released material from Michel Serres Alphonso Lingis and Mieke Bal the different chapters in this book constitute dialogues and approachable essays as well as impassioned arguments for a particular way of approaching thinking in the world
