Digital Carlos Cordon, Pau Garcia-Milà, Teresa Ferreiro Vilarino, Pablo Caballero, 2016-06-01 This book presents strategies and practices to allow everyday companies to cope with the fundamentally changing landscape of business models and to take advantage of the huge business opportunities arising from the advent of big data It develops several case studies from companies in traditional industries like LEGO Yamato and Mediq but also examines small start ups like Space Tango which is partnering with major multinationals to develop new business models using big data The book argues that businesses need to adapt and embark on their big data journey helps them take the first step and guides them along their way It presents successful examples and deduces essential takeaway lessons from them equipping executives to capitalize on big data and enabling them to make intelligent decisions in the big data transformation giving their companies an essential competitive edge **Modern Approaches for Intelligent Information and Database Systems** Andrzej Sieminski, Adrianna

Kozierkiewicz, Manuel Nunez, Quang Thuy Ha, 2018-02-23 This book offers a unique blend of reports on both theoretical models and their applications in the area of Intelligent Information and Database Systems The reports cover a broad range of research topics including advanced learning techniques knowledge engineering Natural Language Processing NLP decision support systems Internet of things IoT computer vision and tools and techniques for Intelligent Information Systems They are

extended versions of papers presented at the ACIIDS 2018 conference 10th Asian Conference on Intelligent Information and Database Systems which was held in Dong Hoi City Vietnam on 19-21 March 2018. What all researchers and students of computer science need is a state of the art report on the latest trends in their respective areas of interest. Over the years, researchers have proposed increasingly complex theoretical models which provide the theoretical basis for numerous applications. The applications in turn have a profound influence on virtually every aspect of human activities while also allowing us to validate the underlying theoretical concepts.

Fashion Management Rosemary Varley, Ana Roncha, Natascha Radclyffe-Thomas, Liz Gee, 2018-10-30. This new textbook authored by a team of expert researchers and lecturers based at the London College of Fashion is one of the first in the field to examine strategic management in the context of the fashion industry, catering specifically for students hoping to work in the sector. International in approach, the text covers all aspects of strategic management from growth strategy and financial management to brand and supply chain management. Fashion Management's engaging style, page design and pedagogical framework makes it accessible to students at all levels while the authors' extensive expertise ensures that the content is always underpinned by rigorous academic research. Established key topics and significant contemporary issues such as sustainability, the digital and corporate social responsibility are considered from both a theoretical and practical perspective with real world examples drawn from high profile global fashion organisations. This is an ideal core textbook for those studying on undergraduate and postgraduate degree courses in fashion management and fashion marketing. The book will also be an important supplementary resource for courses in marketing, retailing and business studies with the fashion industry providing an effective context for students to engage with the application of theory.

Customer Experience Management in the Caribbean Leslie-Ann Jordan, Anne Crick, 2024-09-18. Diving into the evolution of Customer Experience, this text offers an insightful exploration of the paradigm shift from customer service to Customer Experience (CX) within the Caribbean context. Unveiling the dynamics of CX's influence on satisfaction, loyalty and business profitability, this book delves into strategic planning, employee development, data-driven decisions and emerging technological trends. Scholars and practitioners within customer service, services, marketing, customer experience management and customer relationship marketing in the retail, hospitality and tourism, financial, health care and education sectors will find this a valuable resource on CX's transformative power in this region and beyond.
