The Crisis of Islamic Masculinities Amanullah

De Sony,2013-11-07 Rigid notions of masculinity are causing crisis in the global Islamic community These are articulated from the Qur an its commentary historical precedents and societal religious and familial obligations Some Muslims who don t agree with narrow constructs of manliness feel forced to consider themselves secular and therefore outside the religious community In order to evaluate whether there really is only one valid ideal Islamic masculinity The Crisis of Islamic Masculinities explores key figures of the Qur an and Indian Pakistani Islamic history and exposes the precariousness of tight constraints on Islamic manhood By examining Qur anic arguments and the strict social responsibilities advocated along with narrow Islamic masculinities Amanullah De Sony shows that God and women to whom Muslim men relate but are different from often act as foils for the construction of masculinity He argues the constrainers of masculinity have used God and women to think with and to dominate through and that rigid gender roles are the product of a misguided enterprise the highly personal relationship between humans and God does not lend itself to the organization of society because that relationship cannot be typified and replicated Discussions and debates surrounding Islamic masculinities are quickly finding their place in the study of Islam and Muslims and The Crisis of Islamic Masculinities makes a vital contribution to this emerging field

Die Welt des Islams ,2000 *Postcolonial and Queer Theories* John Charles Hawley,2001-02-28 Since the 1960s American and Western European gays have set the agenda for sexual liberation and defined its emergence Western models of homosexuality often provide the only globally recognizable frameworks for discussing gay and lesbian cultures

around the world and thus Western interpretive schemes are imposed on non Western societies At the same time gay and lesbian lifestyles in emerging countries do not always neatly fit Western paradigms and data from those countries often clash with dominant Western models So too the literature of emerging countries often depicts homosexuality in ways which challenge the existing tools of Western literary critics The thirteen contributors to this book examine the implied imposition of a heavily capitalistic white and generally male model of homosexuality on the emerging world By combining postcolonial and queer theoretical approaches this volume suggests alternative frameworks for describing sexuality around the world and for exploring non Western literary representations of gay and lesbian lifestyles The volume concludes with a chapter assessing new questions in both postcolonial and queer theorizing that suggest common concerns and many avenues for future research
