Dancing with Shadows Shiraz Pradhan, 2014-09-30 Scientific determinism Tarot cards Cinema Music Love and Quantum Physics The narrator negotiates love murder and war in this captivating philosophical journey Pradhan is exceptional in showing the narrator's holistic approach to understanding Quantum physics and love A united theory of everything It is an idealistic adolescent goal and this is what makes Dancing with Shadows so interesting This is a coming of age story of a young man in East Africa whose intuition tells him that these things are all connected In his growing self awareness and world weariness he is obsessed with connecting the dots of his life in order to reveal some profound

significance i e the music of God Who hasn t pondered such questions How is my life unique or significant How much more would life mean to me if I understood say the music of God and what is the music of God Although he is a young man continually preoccupied with sex and love he is essentially a philosopher He wants to understand things such as the life application of a quantum wave collapse or the difference between sex and love This story is a Hamlet esque self portrait in his constant questioning It echoes the uncertain and awkward yet outwardly confident manner of Holden Caulfield But above all this story made me think of the kind quest for mystical self importance that I recall from Joyce s narrator in Araby
