*A Second Look at Bernard of Clairvaux* Jean Leclercq, 1990 A psychological case study of the great saint whose influence was felt by popes kings scholars and courtiers across Europe in the twelfth century The modern scholar most familiar with his works and activities brings new light to a man deeply revered by most and roundly disliked by some *Francis of Assisi as Artist of the Spiritual Life* Andrew T. McCarthy, 2010-08-13 Francis of Assisi as Artist of the Spiritual Life applies modern psychological understanding to a historical person While most such studies have sought a comprehensive personality profile this work focuses on one aspect Francis imagination and seeks greater insight into the imaginatively inspired spiritual vision of St Francis An analysis of Francis writings builds on a survey of modern views of the imagination and the approach of ORT or Object Relations Theory ORT with its contention that the imaginative creation of an infant s world develops out of the earliest interactions with the maternal caregiver highlights the way Francis formed his way of visualizing the reality around him While any study of a person 800 years in the grave is more dependent on what is plausible than on what is determinable this study finds numerous examples where Francis writings display an adept use of imagination and even encourages others in that use in a manner that corresponds to an ORT perspective on tutoring the imagination **Dictionary of Theologians** Jonathan Hill, 2010-03-25 An exhaustive guide to every significant Christian theologian who lived from the first century to 1308 the year in which John Duns Scotus died The dictionary encompasses the Catholic Orthodox Nestorian and Monophysite traditions including information not previously available in English Thoroughly indexed the dictionary incorporates common variants of names and concepts which will help and direct the reader The main criterion for inclusion has been contribution to the development of Christian theology Sub criteria by which that is measured include above all originality and influence on later figures With over 290 entries the dictionary provides a handy summary of theologians lives and writings together with recent scholarship as well as an up to date definitive bibliography listing primary texts translations and secondary literature in the major western European languages Useful for all levels of academia no other text matches the depth of the dictionary s bibliographies The unprecedented thoroughness of Hill s compilation provides an essential resource for studies at all levels on such a large and varied range of Church thinkers **Mystics** William Harmless, 2008 In *Mystics* William Harmless S J introduces readers to the scholarly study of mysticism He explores both mystics extraordinary lives and their no less extraordinary writings using a unique case study method centered on detailed examinations of six major Christian mystics Thomas Merton Bernard of Clairvaux Hildegard of Bingen Bonaventure Meister Eckhart and Evagrius Ponticus Rather than presenting mysticism as a subtle web of psychological or theological abstractions Harmless s case study approach brings things down to earth restoring mystics to their historical context **The Middle Ages** Frank N. Magill, 2012-11-12 Each volume of the *Dictionary of World Biography* contains 250 entries on the lives of the individuals who shaped their times and left their mark on world history This is not a who s who Instead each entry provides an in depth essay on the life and career

of the individual concerned Essays commence with a quick reference section that provides basic facts on the individual s life and achievements The extended biography places the life and works of the individual within an historical context and the summary at the end of each essay provides a synopsis of the individual s place in history All entries conclude with a fully annotated bibliography *Dictionary of World Biography* Frank Northen Magill, Alison Aves, 1998 Each volume of the Dictionary of World Biography contains 250 entries on the lives of the individuals who shaped their times and left their mark on world history This is not a who s who Instead each entry provides an in depth essay on the life and career of the individual concerned Essays commence with a quick reference section that provides basic facts on the individual s life and achievements The extended biography places the life and works of the individual within an historical context and the summary at the end of each essay provides a synopsis of the individual s place in history All entries conclude with a fully annotated bibliography *The Letters of Saint Anselm of Canterbury* Saint Anselm (Archbishop of Canterbury), 1990

Lillich, 1993

**Saint Mary of Egypt** Ronald E. Pepin, 2005 A prostitute become hermit Mary of Egypt has been held up especially to monks as the quintessential example of compunction and conversion First written down around AD 600 her story was translated first into Latin by Paul the Deacon in the ninth century and then into vernacular languages Three metrical versions of her Life are translated here that of Flodoard of Reims in the tenth century Hildebert of Lavardin in the twelfth century and an anonymous Spanish poet of the thirteenth century Although these vernacular versions seem to have been directed in part

at monks they also envisaged a larger audience For most of her life Mary of Egypt was a pilgrim her story has travelled from Palestine to Europe from Greek to Latin to French to Spanish and from the monastery to the secular world BOOK JACKET

**Cassian and the Fathers** Thomas Merton, 2005 Cassian and the Fathers is the initial volume in the series of Novitiate Conferences of Thomas Merton the classes he presented to young men beginning their monastic life at the Abbey of Gethsemani in Kentucky They contain Merton's insights on important Patristic and monastic figures preceding the time of St Benedict above all John Cassian the most significant bridge between the early desert fathers and the development of monastic life in the West and they reveal the continuing relevance of their teachings for contemporary monastics and other Christians Much of the value and interest of Cassian and the Fathers as of the novitiate conferences in general lies in the light it casts on Merton himself as teacher novice master and monk These notes provide a privileged standpoint for observing Merton functioning as an integral and important member of his monastic community The public Merton has long been visible in his works written for publication and has more recently been complemented by the interpersonal Merton disclosed in his correspondence and the intimate Merton revealed in his complete journals While the novitiate conferences may not equal in significance these other sources they do allow access to yet another stratum of Merton's wide ranging and immensely productive engagement with his world from the distinctive standpoint he had chosen within a tradition dating back more than sixteen centuries While these lectures need to be used critically and carefully in evaluating Merton's own perspectives and commitments nevertheless they do need to be used The dialectical relationship between Merton's private and more public statements including those made to his novice classes makes possible a more complex and thus a richer picture of his monastic identity and so of his personal identity In learning about Cassian and the Fathers from Merton one learns as well about Merton as monk as heir to the great monastic teachers and as teacher of a new generation of monks an easily overlooked and undervalued yet integral even central component of his vocation for more than half his monastic life Thus the publication of the novitiate conferences will fill a significant lacuna in Merton studies and contribute to a balanced holistic comprehension and appreciation of Thomas Merton's life and work This edition includes an extensive introduction situating these conferences and Merton's years as novice master in the context of his broader life as monk and writer an extensively annotated edition of the text of the conferences based on Merton's own typescript and helpful appendices indicating changes Merton made to his text correlating the written text with taped versions of the actual classes and providing suggestions for further reading both in Merton's other works and in more recent studies of the figures he discusses here
