Second Nature Of Things:

In the Nature of Things Jane Bennett, William Chaloupka, 1993 Annotation Informed by recent developments in literary criticism and social theory this book addresses the presumption that nature exists independent of culture and in particular of language *The Philosophy of the Beautiful* William Angus Knight, 1893 *The Theosophist*, 1889 Spinoza and his environment Benedictus de Spinoza, 1886

The Ante-Nicene Fathers: Lactantius, [etc.], Apostolic teaching and constitutions, Homily, and Liturgies Alexander Roberts, Sir James Donaldson, Arthur Cleveland Coxe, Allan Menzies, 1886

, 1886 **A Latin-English Dictionary for the Use of Junior Students** John Tahourdin White, 1881 **Stuff** Daniel Miller, 2010 Things make us just as much as we make things And yet unlike the study of languages or places there is no discipline devoted to the study of material things This book shows why it is time to acknowledge and confront this neglect and how much we can learn from focusing our attention on stuff The book opens with a critique of the concept of superficiality as applied to clothing It presents the theories that are required to understand the way we are created by material as well as social relations It takes us inside the very private worlds of our home possessions and our processes of accommodating It considers issues of materiality in relation to the media as well as the implications of such an approach in relation for example to poverty Finally the book considers objects which we use to define what it is to be alive and how we use objects to cope with death Based on more than thirty years of research in the Caribbean India London and elsewhere Stuff is nothing less than a manifesto for the study of material culture and a new way of looking at the objects that surround us and make up so much of our social and personal life A copious and critical Latin-English dictionary Peter Bullions, 1862
