# THE SECOND OLDEST PROFESSION

A Study of the Prostitute's  
"Business Manager"

by

BEN L. REITMAN  
M.D.

With a Preface by

Dr. HARRY ROBERTS

"Apart from its literary and humanitarian interest, Dr. Reitman's book has great sociological and socio-political value. It is a book which should be read by everyone who is concerned with, or interested in, the efforts that are being made to put an end to that commercial traffic in women which, under various disguises, is still carried on in nearly every country of the world. It is a book for those engaged in promoting social hygiene as well as for dilettante students of the underside of human life."

**Übersetzungswissenschaft im Umbruch** Angelika Lauer, 1996      **Curriculum and Imagination** James McKernan, 2007-08-07 Curriculum and Imagination describes an alternative process model for designing developing implementing and evaluating curriculum suggesting that curriculum may be designed by specifying an educational process which contains key principles of procedure This comprehensive and authoritative book offers a practical and theoretical plan for curriculum making without objectives shows that a curriculum can be best planned and developed at school level by teachers adopting an action research role complements the spirit and reality of much of the teaching profession today embracing the fact that there is a degree of intuition and critical judgement in the work of educators presents empirical evidence on teachers human values Curriculum and Imagination provides a rational and logical alternative for all educators who plan curriculum but do not wish to be held captive by a mechanistic ends means notion of educational planning Anyone studying or teaching curriculum studies or involved in education or educational planning will find this important new book fascinating reading      Handbook of Intelligence Studies Loch K. Johnson, 2007-01-24 This topical volume offers a comprehensive review of secret intelligence organizations and activities Intelligence has been in the news consistently since 9 11 and the Iraqi WMD errors Leading experts in the field approach the three major missions of intelligence collection and analysis covert action and counterintelligence Within each of these missions the dynamically written essays dissect the so called intelligence cycle to reveal the challenges of gathering and assessing information from around the world Covert action the most controversial intelligence activity is explored with special attention on the issue of military organizations moving into what was once primarily a civilian responsibility The authors furthermore examine the problems that are associated with counterintelligence protecting secrets from foreign spies and terrorist organizations as well as the question of intelligence accountability and how a nation can protect its citizens against the possible abuse of power by its own secret agencies The Handbook of Intelligence Studies is a benchmark publication with major importance both for current research and for the future of the field It is essential reading for advanced undergraduates graduate students and scholars of intelligence studies international security strategic studies and political science in general      **The Routledge Handbook of Hispanic Applied Linguistics** Manel Lacorte, 2014-09-19 This book provides a comprehensive overview of Hispanic applied linguistics allowing students to understand the field from a variety of perspectives and offering insight into the ever growing number of professional opportunities afforded to Spanish language program graduates The goal of this book is to re contextualize the notion of applied linguistics as simply the application of theoretical linguistic concepts to practical settings and to consider it as its own field that addresses language based issues and problems in a real world context The book is organized into five parts 1 perspectives on learning Spanish 2 issues and environments in Spanish teaching 3 Spanish in the professions 4 the discourses of Spanish and 5 social and political contexts for Spanish The book s all inclusive coverage gives students the

theoretical and sociocultural context for study in Hispanic applied linguistics while offering practical information on its application in the professional sector *Gender, Sexuality, and Intelligence Studies* Mary Manjikian,2020-06-18 This is the first work to engage with intelligence studies through the lens of queer theory Adding to the literature in critical intelligence studies and critical international relations theory this work considers the ways in which both the spy and the activities of espionage can be viewed as queer Part One argues that the spy plays a role which represents a third path between the hard power of the military and the soft power of diplomacy Part Two shows how the intelligence community plays a key role in enabling leaders of democracies to conduct covert activities running counter to that mission and ideology in this way allowing a leader to have two foreign policies an overt public policy and a second closeted queer foreign policy

**Computers and Translation** H. L. Somers,2003-01-01 Designed for translators and other professional linguists this work attempts to clarify explain and exemplify the impact that computers have had and are having on their profession The book concerns machine translation computer aided translation and the future of translation and the computer **The Second Oldest Profession** Ben Lewis Reitman,1931 **Sex and Crime in India** Puran Batria,1992 **Women's Studies** Goldsmiths' College.
