Secondary Education for All R. H. Tawney, 1988-07-01 Secondary Education for All cannot be considered independently from the life and career of its author R H Tawney Written in 1922 in time for the general election it is the Labour party's first major statement on adolescent education It reflects the historical insights and ardent political convictions of an economic historian turned socialist and helped to bring the issue of education reform from the periphery of politics to a more central position Through the introduction of free secondary education for all Tawney hoped to rid education of class inequality over a generation This is a classic and influential text which acted as a springboard for educational advance which reflects the growing educational and political debate of 1920s Britain
