Scholarly World, Private Worlds Karl Dietrich Fezer, 2001-12-24 BLUE INK Review STARRED REVIEW Scholarly World Private Worlds Thinking Critically About Science Religion and Your Private Beliefs Karl D Fezer Xlibris 434 pages paperback 24 99 9781401034146 Reviewed March 2014 Informal logic is a discipline that examines the validity of the arguments we encounter in everyday discourse from political speeches to editorials to posts on social media Karl D Fezer's work is nothing less than a tour de force of informal logic This important book investigates under what conditions our beliefs are warranted and the limits of the methods by which we derive them The author is not concerned with validating or debunking any particular worldview religious or scientific but with examining the grounds on which we form the views that we do in fact hold The book's first part discusses the distinction between the views we harbor in our inmost hearts and their extension into the social realm where we encounter a multiplicity of views different from our own In the second part Fezer presents good reasons why we might doubt the beliefs we hold In his third section he discusses methods by which we might form views that are worthy of being called rational The final section covers the differences between science and religion and the limitations inherent in attempts to reconcile competing worldviews Fezer also contributes to the debate around teaching Creationism in schools He makes an argument for limiting the curriculum to accounts of the natural world that do not introduce supernatural principles However Fezer is not anti religion and he discusses both religious and humanistic viewpoints neutrally The author notes that he is attempting to fill a void in university liberal arts curricula As such the book has the structure of a textbook complete with questions for further study in an appendix However it is written in crisp readable prose Readers who aren't intimidated by the textbook style will find a cogent forceful presentation that is likely to challenge his or her convictions in a non threatening and highly impressive manner **Focus On: 100 Most Popular**
