Magness, 2010-12 A concise thirty day guide to healing from sexual addiction      *American Bookseller*, 1990      **Stories of Transformation and Hope** Irene Alexander, 2014-01-08 What if the people I know were to be transformed by an encounter with the cosmos The foreign woman who argues with the doctor the homeless man on the street corner the corrupt politician the fisherman risking his life to make a living What if I met up with them in a decade and found that each had experienced a life transformation after meeting the God Man Jesus who touched them in the deepest core of their being And what if one of Jesus' companions was to meet them and listen to their story the story of their life and their encounter with the one who brought transformation This book collects the imagined stories of men and women of whom we know very little only the bare bones of their encounters It is a book for the foreign woman the homeless man the politician and the fisherman any of us who want to deeply encounter a God who meets us as a real person The stories touch us because they are refashioned into the contextual thinking of our time and our culture and yet they reflect the reality of another time a time when God walked among us in our streets and our neighborhood and into our homes

**The Empathic God** Frank Woggon, 2024-05-07 What if Jesus did not come to die for our sins What if instead Jesus's life and death was intended to provide a way out of our shame While traditional Christian teachings about the atonement emphasize sin as guilt and transgression against God's will and commandments Frank Woggon points out that clinical spiritual care reveals that the human condition is predominantly marked by shame rather than guilt In *The Empathic God* Woggon examines myopic readings of the Jesus event that in turn have embedded distortions into traditional paradigms of the atonement In contrast Woggon mines narratives of the human condition to engage in a critical examination of the Jesus story As a clinician and ordained Baptist minister Woggon presents the Jesus event as God's

empathic initiative toward humanity and convincingly argues that salvation comes through empathy rather than forgiveness Woggon s work constructs a clinical theology of at onement from the perspective of clinical spiritual care The Empathic God calls for a practical response of caring participation in God s ongoing work of salvation through an empathic praxis of spiritual care Most importantly The Empathic God takes seriously that lived human experience is the starting point for theological exploration rather than doctrine This book will help practitioners and students of spiritual care in the Christian tradition to reflect more critically on the intersection of spiritual care practice and theology The book also will challenge pastors ministers of pastoral care chaplains pastoral counselors spiritually oriented therapists to interrogate and re interpret traumatic shame filled Christian teachings about the atonement so that they too can join in God s ongoing and liberating work of salvation      Paperbound Books in Print ,1992      Books in Print ,1993-09 V 1 Authors A D v 2 Authors E K v 3 Authors L R v 4 S Z v 5 Titles A D v 6 Titles E K v 7 Titles L Q v 8 Titles R Z v 9 Out of print out of stock indefinitely v 10 Publishers      **Subject Guide to Books in Print** ,1991      **INTEGRATIVE HOLISTIC HEALTH, HEALING, AND TRANSFORMATION** Penny Lewis,2002-01-01 The goal of this book is to begin to present the fundamental body of knowledge which informs current approaches in complimentary and alternative medicine and to explore the role of the new professions of integrative holistic health practitioner consultant and administrator This book is designed to compliment enhance deepen and broaden the reader s existing expertise through an integrative approach which will improve his her ability to consult design programs and work in a variety of settings with various populations including those with medical and psychological conditions as well as those who wish to support their health and well being The book provides the necessary conceptual foundational frameworks for exploring how practitioners in a field of alternative medicine holistic health know what they know in support of their work These core ways of knowing gives them a foundation for evaluating their work new advances in the field and affords them interrelated frames of knowledge for their continued research expansion and integrative work in the field Trained holistic health practitioners who may have applied one or more of these paradigms may now be able to expand their foundational and conceptual base thereby broadening their theory and techniques that are appropriate to their professional arenas Section I is designed to explore general ways of knowing and meaning making in holistic health Section II is designed to offer the reader practitioner methodology regarding the creation and implementation of holistic health centers programs and integrated consultation practices Finally Section III offers examples of integrative holistic health clinicians who combine and synthesize a variety of holistic health approaches and paradigms into their practices as practitioners healers therapists and consultants      Embody Toni Bergins, M.Ed.,2024-10-29 A new paradigm for embodied healing in a unique experiential therapeutic process in which expressive movement guided imagery ritual music and creative expression work together In Embody Toni Bergins the founder and creator of JourneyDance an internationally renowned dance movement program shares with readers a powerful way to address trauma mindfully so people can confront
