Wolfgang Schmidbauer.) Robert S. de Ropp,Wolfgang Schmidbauer,1970 Sex, Time, and Power Leonard Shlain,2004-08-03 As in the bestselling *The Alphabet Versus the Goddess* Leonard Shlain s provocative new book promises to change the way readers view themselves and where they came from Sex Time and Power offers a tantalizing answer to an age old question Why did big brained Homo sapiens suddenly emerge some 150 000 years ago The key according to Shlain is female sexuality Drawing on an awesome breadth of research he shows how long ago the narrowness of the newly bipedal human female s pelvis and the increasing size of infants heads precipitated a crisis for the species Natural selection allowed for the adaptation of the human female to this environmental stress by reconfiguring her hormonal cycles entraining them with the periodicity of the moon The results however did much more than ensure our existence they imbued women with the concept of time and gave them control over sex a power that males sought to reclaim And the possibility of achieving immortality through heirs drove men to construct patriarchal cultures that went on to dominate so much of human history From the nature of courtship to the evolution of language Shlain s brilliant and wide ranging exploration stimulates new thinking about very old matters Self-Analysis for the Psychotherapist Aaron A. Moss,2001-07 The Moss Six Step Method of Self Analysis will help you the psychotherapists to become more emotionally mature You will stop being a secret fraud This book is recommended by prestigious analysts It is well documented Transformation of the Human-Animal Brigitte Arora,2012-03-21 We are all immortal Beingsdeath is an illusion This world and who we think ourselves to be is only a temporary dream But our existence within the darkness and ignorance of this lower self consciousness is of tremendous importance It is here that we Homo sapiens have the opportunity to transcend our present mind dominated human animal consciousness This is the fundamental message that is received during the life altering occurrence of Self Realization We begin the spiritual journey of transformation in order to obtain liberation from the lower self consciousness by evolving into the Higher Self consciousness which is the next stage in mankind s evolution The effect of transcending the old consciousness poses many problems due to powerful and dangerous alterations to our psyche and biological system The transforming power of kundalini can burn out the nervous system and unbalance the personality from which it may never recover What role does kundalini and Grace play in our Awakening How do we transcend our animal traits Can we use sex in order to go beyond sex How do we adapt to living simultaneously in the two opposing worlds of duality and Oneness What is consciousness What and who is the new race that is going to replace the old man Does time exist What is the connection we have with our Soul Does God exist Who is really in charge
