Politics Of Ritual Kinship Confraternities And Social Order In Early Modern Italy:

The Politics of Ritual Kinship Nicholas Terpstra, 2000 Confraternities were the most common form of organized religious life in medieval and early modern Europe They were at once the lay face of the church the spiritual heart of civic government and the social kin who claimed the allegiance of peers and the obedience of subordinates In this 1999 collection fifteen scholars examine the development of confraternities in Italy where they emerged first and had the greatest impact Individual essays explore a common set of themes across Italy from the twelfth to the eighteenth centuries the ubiquity of confraternities social construction and devotional ethos their ritual culture and civic religion their antagonistic and collaborative relations with both civic and ecclesiastical authorities and their role in social welfare and social control of marginal groups The authors demonstrate how the ritual kinship expressed in confraternities emerged in the Middle Ages and became a powerful force in civilizing early modern Italian society Early Modern Confraternities in Europe and the Americas Christopher F. Black, Pamela Gravestock, 2006 Scholars have long recognized the significant role that confraternities or lay brotherhoods played in the religious life of medieval and early modern Catholicism Taking a broad chronological and geographical approach this collection of essays addresses the varied and fluid nature of confraternities and their relationship to wider society

Mary of Mercy in Medieval and Renaissance Italian Art Katherine T. Brown, 2017-07-05 Mater Misericordiae Mother of Mercy emerged as one of the most prolific subjects in central Italian art from the late thirteenth through the sixteenth centuries With iconographic origins in Marian cult relics brought from Palestine to Constantinople in the fifth century the amalgam of attributes coalesced in Armenian Cilicia then morphed as it spread to Cyprus An early concept of Mary of Mercy the Virgin standing with outstretched arms and a wide mantle under which kneel or stand devotees entered the Italian peninsula at the ports of Bari and Venice during the Crusades eventually converging in central Italy The mendicant orders adopted the image as an easily recognizable symbol for mercy and aided in its diffusion In this study the author's primary goals are to explore the iconographic origins of the Madonna della Misericordia as a devotional image by identifying and analyzing key attributes to consider circumstances for its

eventual overlapping function as a secular symbol used by lay confraternities and to discuss its diaspora throughout the Italian peninsula Western Europe and eastward into Russia and Ukraine With over 100 illustrations the book presents an array of works of art as examples including altarpieces frescoes oil paintings manuscript illuminations metallurgy glazed terracotta stained glass architectural relief sculpture and processional banners

Guilds, Labour and the Urban Body Politic Bert De Munck,2017-12-01 This book presents a new view on the relation between labour and community through a focus on craft guilds In the Southern Netherlands occupational guilds were both powerful and governed by manufacturing masters enabling the latter to imprint their mark upon urban society in an economic socio cultural and political way While the urban community was deeply indebted to a corporative spirit and guild ethic originating in medieval Germanic and Christian traditions guild based artisans succeeded in being accepted as genuine political and hence rational actors their political identity and agency being based upon their skills and trustworthiness In the long run this corporative spirit and power inexorably waned Yet this book shows that an adequate understanding of the development of European modernity i e proletarianisation and the emergence of a modern economy and modern economic and political thinking requires taking seriously the ruins upon which it is build These histories can actually be recounted as purifications of sorts in which the economic was separated from the political the individual from the social and the transcendent from the material While the religiously inspired corporative nature of the urban body politic waned the urban artisans lost their credibility as political and rational actors
