#### **Politics A Very Short Introduction:**

Politics: A Very Short Introduction Kenneth Minoque, 2000-02-24 In this introduction Kenneth Minoque discusses the development of politics from the ancient world to the twentieth century He considers the evolution of different systems ideological aspects and the future of political science Politics Kenneth R. Minoque, 1995 In this essay Kenneth Minoque discusses the development of politics from the ancient world to the twentieth century He prompts us to consider why political systems evolve how politics offers both power and order in our society whether democracy is always a good thing and what future politics may have in the twenty first century BOOK JACKET Political Philosophy: A Very Short Introduction David Miller, 2003-06-26 Accessibly written this short introduction encourages readers to think clearly and critically about key political concepts such as authority democracy justice and nationality among others Miller looks at political authority discusses the reasons society needs politics in the first place explores the limitations of politics and asks if there are areas of life that shouldn t be governed by politics Moreover he explores the connections between political authority and justice a constant theme in political philosophy and he outlines the ways in which social justice can be used to regulate rather than destroy a market economy American Politics: A Very Short Introduction Richard M. Valelly, 2013-02-11 American politics seems to grow more contentious and complicated by the day and whether American democracy works well is hotly debated Amidst all this roiling partisan argument and confusing claims and counterclaims there has never been a greater need for an impartial primer on the basics of the American political system This Very Short Introduction gives readers a concise accessible and sophisticated overview of the vital elements of American democracy emphasizing both how these elements function their historical origins and how they have evolved into their present forms Richard Valelly covers all facets of America's political system the bicameral Congress and the place of the filibuster the legislative executive process the role of the Supreme Court political parties and democratic choice bureaucracy the partisan revival and the political economy He offers as well an original analysis of the evolution of the American presidency and a fascinating chapter on the effects of public polling on political decision making and voter representation Valelly shows that the American political system is and always has been very much a work in progress unfolding within and also constantly updating an eighteenth century constitutional framework In a refreshingly balanced and judicious assessment he explores the strengths of American democracy while candidly acknowledging both gaps in representation and the increasing income inequality have sparked protest and intense public discussion Finally Valelly considers the remarkable persistence for more than two centuries of the basic constitutional forms established in 1787 despite the dramatic social changes that have reshaped virtually all aspects of American life For anyone wishing to understand the nuts and bolts of how our political system works and sometimes fails to work this Very Short Introduction is the very best place to start About the Series Oxford's Very Short Introductions series offers concise and original introductions to a wide range of subjects from Islam to Sociology Politics to Classics Literary

Theory to History and Archaeology to the Bible Not simply a textbook of definitions each volume in this series provides trenchant and provocative yet always balanced and complete discussions of the central issues in a given discipline or field Every Very Short Introduction gives a readable evolution of the subject in question demonstrating how the subject has developed and how it has influenced society Eventually the series will encompass every major academic discipline offering all students an accessible and abundant reference library Whatever the area of study that one deems important or appealing whatever the topic that fascinates the general reader the Very Short Introductions series has a handy and affordable guide that will likely prove indispensable \*\*American Politics: A Very Short Introduction\*\* Richard M. Valelly,2013-03-28 This concise volume fills a long standing need for a sophisticated brief primer on American national politics A major theme of the book is the interplay between constitutional and extra constitutional institutions and political processes It provides engaging and exceptionally instructive treatments of the nuts and bolts of how American politics works and of the strengths of American democracy while candidly considering gaps in representation and the issue of increasing income inequality

British Politics: A Very Short Introduction Anthony Wright, 2013-05-30 This book presents an introduction to the evolution and history of the British political system American Political Parties and Elections: A Very Short Introduction L. Sandy Maisel, 2007-08-10 Few Americans and even fewer citizens of other nations understand the electoral process in the United States Still fewer understand the role played by political parties in the electoral process or the ironies within the system Participation in elections in the United States is much lower than in the vast majority of mature democracies Perhaps this is because of the lack of competition in a country where only two parties have a true chance of winning despite the fact that a large number of citizens claim allegiance to neither and think badly of both Or perhaps it is because in the U S campaign contributions disproportionately favor incumbents in most legislative elections or that largely unregulated groups such as the now notorious 527s have as much impact on the outcome of a campaign as do the parties or the candidates campaign organizations Studying these factors you begin to get a very clear picture indeed of the problems that underlay our much trumpeted electoral system This Very Short Introduction introduces the reader to these issues and more providing an insider s view of how the system actually works while shining a light on some of its flaws As we enter what is sure to be yet another highly contested election year it is more important than ever that Americans take the time to learn the system that puts so many in power About the Series Oxford's Very Short Introductions series offers concise and original introductions to a wide range of subjects from Islam to Sociology Politics to Classics Literary Theory to History and Archaeology to the Bible Not simply a textbook of definitions each volume in this series provides trenchant and provocative yet always balanced and complete discussions of the central issues in a given discipline or field Every Very Short Introduction gives a readable evolution of the subject in question demonstrating how the subject has developed and how it has influenced society Eventually the series will encompass every major academic discipline offering all students an accessible and abundant

reference library Whatever the area of study that one deems important or appealing whatever the topic that fascinates the general reader the Very Short Introductions series has a handy and affordable guide that will likely prove indispensable

**Ideology** Michael Freeden, 2003-06-26 Ideology is one of the most controversial terms in the political vocabulary exciting both revulsion and inspiration This book examines the reasons for those views and explains why ideologies deserve respect as a major form of political thinking It investigates the centrality of ideology both as a political phenomenon and as an organizing framework of political thought and action It explores the changing understandings of ideology as a concept and the arguments of the main ideologies By employing the latest insights from a range of disciplines the reader is introduced to the vitality and force of a crucial resource at the disposal of societies through which sense and purpose is assigned to the political world ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable Ancient Philosophy: A Very Short Introduction Julia Annas, 2000-10-12 Presents fundamental philosophical questions as posed by ancient philosophers comparing and contrasting modern differences in approach and International Relations: A Very Short Introduction Christian Reus-Smit, 2020-04-23 International perspective relations affects everyone s lives their security economic well being rights and freedoms and the environment they share Recently we have seen the transformation from a world of empires to today s world of sovereign states which are enmeshed in a complex array of international institutions all exercising degrees of political authority. The new global organization of political authority has far reaching consequences This Very Short Introduction untangles this complex world providing an accessible framework for understanding the contours of global political change Christian Reus Smit treats theory as an indispensable tool for grasping international relations but demystifies theorizing introducing it as an everyday human practice He surveys a range of theories from realism to feminism reading them as contrasting perspectives on the global organization of political authority Historically such organization has been shaped by diverse social forces four of which are discussed in detail shifting patterns of warfare changing economic conditions struggles for rights and the politics of culture Reus Smit concludes with a reflection on the future of international relations in an era of profound global change ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable

**International Relations** Christian Reus-Smit,2020 International relations affects everyone s lives their security economic well being rights and freedoms and the environment they share This book explores international relations central concerns with the changing way that political authority is organised globally and provides the theoretical tools to understand

the dynamics of the field Citizenship Richard Bellamy, 2008-09-25 Interest in citizenship has never been higher But what does it mean to be a citizen of a modern complex community Why is citizenship important Can we create citizenship and can we test for it In this fascinating Very Short Introduction Richard Bellamy explores the answers to these questions and more in a clear and accessible way He approaches the subject from a political perspective to address the complexities behind the major topical issues Discussing the main models of citizenship exploring how ideas of citizenship have changed through time from ancient Greece to the present and examining notions of rights and democracy he reveals the irreducibly political nature of citizenship today ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable **Geopolitics** Klaus Dodds, 2019 Encompassing everything from great power politics to everyday objects such as smart phones geopolitics affects citizens governments and international bodies and is far more than simply the impact of geographical features on political developments This book considers both geopolitics intellectual historical origins and its current concerns **Liberalism** Michael Freeden, 2015 In this Very Short Introduction Michael Freeden explores the concept of liberalism one of the longest standing and central political theories and ideologies Combining a variety of approaches he distinguishes between liberalism as a political movement as a system of ideas and as a series of ethical and philosophical principles Machiavelli: A Very Short Introduction Quentin Skinner, 2019-07-25 Niccol Machiavelli taught that political leaders must be prepared to do evil so that good may come of it and his name has been a byword ever since for duplicity and immorality Is his sinister reputation deserved In answering this guestion Quentin Skinner traces the course of Machiavelli's adult life from his time as Second Chancellor of the Florentine republic during which he met with kings the pope and the Holy Roman Emperor to the fall of the republic in 1512 to his death in 1527 It was after the fall of the Republic that Machiavelli composed his main political works The Prince the Discourses and The History of Florence In this second edition of his Very Short Introduction Skinner includes new material on The Prince showing how Machiavelli developed his neo classical political theory through engaging in continual dialogue with the ancient Roman moralists and historians especially Cicero and Livy The aim of political leaders Machiavelli argues should be to act virtuously so far as possible but to stand ready to be not good when this course of action is dictated by necessity Exploring the pivotal concept of princely virt to be found in classical and Renaissance humanist texts Skinner brings new light to Machiavelli s philosophy of a willingness to do whatever may be necessary whether moral or otherwise to maintain a position of power ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable

The History of Political Thought Richard Whatmore, 2021 Thinking about politics has tended to be historical in nature because of the comparisons and contrasts that can be drawn between past and present Different periods in politics have used the past differently At times political thought can be said to have been drawn directly from the study of history at others perhaps including our own time the relationship is more indirect. This volume explores the core concerns and questions in the field of the history of political thought Richard Whatmore considers the history of political thought as a branch of political philosophy political science and examines the approaches of core theorists such as Reinhart Koselleck Strauss Michel Foucault and the so called Cambridge School of Quentin Skinner and John Pocock The Ballot Box Oxford, 2006-09 Very Short Introduction Boxed Sets Books that are perfect to pop in your pocket now packaged to make the ideal gift Five best selling introductions to politics from the highly acclaimed Very Short Introductions series packaged together in a stylish box to give a complete introductory overview to the subject of politics from the development of capitalism the history of democracy to a succinct history of fascism from its pre First World War origins to the contemporary resurgence of the extreme right Politics A Very Short Introduction by Kenneth Minogue ISBN 10 0 19 285388 0 ISBN 13 978 0 19 285388 2 This is a fascinating book which sketches in a very short space one view of the nature of politics the reader is challenged provoked and stimulated by Minogue's trenchant views Ian Davies Talking Politics In this provocative but balanced essay Kenneth Minogue discusses the development of politics from the ancient world to the twentieth century He prompts us to consider why political systems evolve how politics offers both power and order in our society whether democracy is always a good thing and what future politics may have in the twenty first century Capitalism A Very Short Introduction by James Fulcher ISBN 10 0 19 280218 6 ISBN 13 978 0 19 280218 7 The history and development of capitalism are discussed through three detailed and absorbing case studies ranging from the tulipomania of seventeenth century Holland to the recent Enron crisis in America Democracy A Very Short Introduction by Bernard Crick ISBN 10 0 19 280250 X ISBN 13 978 0 19 280250 7 A short account of the history of the doctrine and practice of democracy from ancient Greece and Rome through the American French and Russian revolutions and of the usages and practices associated with it in the modern world Socialism A Very Short Introduction by Michael Newman ISBN 10 0 19 280431 6 ISBN 13 978 0 19 280431 0 well written and enjoyable to read Socialist Review Many people now think of socialism as an outdated ideology Michael Newman seeks to contextualise it explaining the evolution of socialist ideas from the French Revolution to the present day and examining why past attempts to implement socialism might have failed Fascism A Very Short Introduction by Kevin Passmore ISBN 10 0 19 280155 4 ISBN 13 978 0 19 280155 5 Kevin Passmore's excellent introduction to the subject succeeds on many levels There are few books by a single author that deal with fascism as a generic phenomenon across the whole of Europe especially one as concise as this and as refreshingly free of jargon and the inevitable interminable typologies Tim Kirk Times Literary Supplement

<u>Democracy: A Very Short Introduction</u> Bernard Crick,2002-10-10 No political concept is more used and misused than that

of democracy Nearly every regime today claims to be democratic but not all democracies allow free politics and free politics existed long before democratic franchises This book is a short account of the history of the doctrine and practice of democracy from ancient Greece and Rome through the American French and Russian revolutions and of the usages and practices associated with it in the modern world It argues that democracy is a necessary but not a sufficient condition for good government and that ideas of the rule of law and of human rights should in some situations limit democratic claims ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable

**Encyclopedia of Politics** Rodney P. Carlisle, 2005-03-17 Although the distinction between the politics of the left and the right is commonly assumed in the media and in treatments of political science and history the terms are used so loosely that the student and the general reader are often confused What exactly are the terms left and right supposed to imply This two volume Encyclopedia of Politics The Left and the Right contains over 450 articles on individuals movements political parties and ideological principles with those usually thought of as left in the left hand volume Volume 1 and those considered on the right in the right hand volume Volume 2 **British Politics: A Very Short Introduction** Tony Wright, 2020-06-25 At a time when politics in Britain is experiencing unprecedented turmoil this Very Short Introduction examines the past present and possible future of British politics Tony Wright puts current events into a longer and larger perspective ranging from political ideas to political institutions and offering an overview of the British political tradition Throughout he identifies key characteristics and ideas of British politics and investigates what makes it distinctive while emphasizing how these characteristics are reflected in the way the political system functions This new edition includes key material on Brexit analysing the divisions revealed by the Brexit vote and the extent to which Britain now has a politics of identity and considering whether the referendum itself has fundamentally altered the constitutional landscape ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable
