## **Politics Of Federalism Syed Kechik In:**

The Politics of Federalism Bruce Ross-Larson, 1976      *Translations on South and East Asia* ,      Identity Politics and Elections in Malaysia and Indonesia Karolina Prasad, 2015-12-14 In recent social research ethnicity has mostly been used as an explanatory variable. It was only after it was agreed that ethnicity in itself is subject to change were the questions of how and why it changes possible to answer. This multiplicity of ethnic identities requires that we think of each society as one with multiple ethnic dimensions of which any can become activated in the process of political competition and sometimes several of them within a short period of time. Focusing on Malaysia and Indonesia this book traces the variations of ethnic identity by looking at electoral strategies in two sub national units. It shows that ethnic identities are subject to change induced by calculated moves by political entrepreneurs who use identities as tools to maximize their chances of winning elections or expanding support base and highlights how political institutions play an enormous role in shaping the modes and dynamics of these ethno political manipulations. The book suggests that in societies where ethnic identities are activated in politics instead of analysing politics with ethnic distribution as an independent variable ethnic distribution can be taken as the dependent variable with political institutions being the explanatory one. It examines the problems of voters behaviour and parties and candidates strategy in a polity that is to a significant extent driven by ethnic relations. Pushing the boundaries of qualitative research on Southeast Asian politics by placing formal institutions at the centre of its analysis this book will be of interest to students and scholars of Southeast Asian Politics, Race and Ethnic Studies and International Relations.      **Law, Government and the Constitution in Malaysia** Andrew Harding, 2024-01-22 This book aims to give a comprehensive picture of law, government and the constitution in Malaysia and to set constitutional developments in their proper political and social context. It is written in such a way that lawyers may see how perspectives other than the purely legal can enrich the understanding of constitutional issues in Malaysia and that others may comprehend the lawyer's perspective on these issues. There has been an increasing interest in constitutional issues in Malaysia since the mid 1980s following a number of important events including the advent of judicial activism and the curtailment of royal powers. There is now a pressing need for a reappraisal of the Malaysian constitution in terms of its political and social dimensions and dynamics and the extent of its adherence to or its interpretation of those principles which are collectively known as constitutionalism: that is democratic government, the rule of law, the separation of powers and the observance of fundamental human rights and liberties. The book examines how the constitution has adjusted to its environment, how it actually operates and how its abstractions differ from reality. The author concludes that the principles of the constitution have been eroded to such a degree that a new constitutional settlement is needed, one which makes it clear what the basic tenets of the Malaysian polity are.      Routledge Handbook of Contemporary Malaysia Meredith Weiss, 2014-10-17 The Routledge Handbook of Contemporary Malaysia offers a broad analytical survey of Malaysia. It provides a comprehensive survey of significant topics in Malaysian politics, economy

and society today focussing on issues institutions and trends It is divided into four thematic sections which are all introduced by the editor Domestic politics Economics Social policy and social development International relations and security The volume brings together an international team of experts an interdisciplinary mix of forty contributors from Malaysia and elsewhere including many of the leading specialists on Malaysian affairs The chapters included in the volume form an accessible and fascinating window onto contemporary Malaysia They each introduce a different aspect of the Malaysian polity economy or society offering both historical perspective and a current assessment or investigation Designed for general readers and specialists alike chapters may be read individually each stands on its own or conjointly Up to date interdisciplinary and academically rigorous the Handbook will be of interest to students academics policymakers and others in search of reliable information on Malaysian politics economics and society

**Property and Politics in Sabah, Malaysia** Amity A. Doolittle, 2011-11-15 In 1990 shortly after a Malaysian politician announced that the boundaries of Kinabalu Park a primary tourist destination were to be expanded to include the species rich tropical forest known locally as Bukit Hempuen most of the area was burned to the ground allegedly by local people What would motivate the people who had for generations hunted and gathered forest products there to act so destructively In this volume Amity Doolittle illuminates this and other contemporary land use issues by examining how resources were used historically in Sabah from 1881 to 1996 and what customary rights of access to land and resources were enjoyed by local people Drawing upon anthropology political science environmental history and political ecology she looks at how control over and access to resources have been defined negotiated and contested by colonial state agents the postcolonial Malaysian state and local people The study is grounded in methodological and theoretical advances in the field of political ecology merging the traditions of human ecology and political economy and looking at environmental conflicts in terms of the particulars of place culture and history Doolittle assumes that environmental problems have causes that are complex and changing and that solutions must be specific to time and place Using a political ecology perspective allows her to focus on the root causes of environmental degradation exposing the underlying political economic and social forces at work The challenge in the twenty first century she writes is to move beyond blaming local people for resource degradation and to find ways to achieve equitable access to natural resources and more sustainable land use practices Property and Politics in Sabah Malaysia has great relevance to development studies political ecology environmental planning anthropology and legal studies in natural resource management

**Government and Society in Malaysia** Harold Crouch, 2019-01-24 The Malaysian political system incorporates a mix of democratic and authoritarian characteristics In this comprehensive account Harold Crouch argues that while they may appear contradictory the responsive and the repressive features of the system combine in an integrated and coherent whole Consistently dominated by the Malay party UMNO which represents the largest ethnic group the Malaysian government requires the support of its Chinese Indian and East Malaysian minorities to retain control The need to appeal to

a politically and ethnically divided electorate restrains the arbitrary exercise of power by the ruling coalition As a result the government responds to popular aspirations particularly since a split in the dominant Malay party in the 1980s Yet it also controls the electoral process ensuring victory in all national elections Communal social and economic factors have all contributed in rather ambiguous ways to shaping the Malaysian political system Communal tensions change in the class structure and the consequences of economic growth have generated pressures in both democratic and authoritarian directions The government has been remarkably stable despite sharp ethnic divisions and Crouch suggests it is unlikely to move swiftly toward full democracy in the near future
