Rediscovering the Democratic Purposes of Education Lorraine McDonnell, P. Michael Timpone, Roger W. Benjamin, 2000 Why do America s public schools seem unable to meet today s social challenges As competing interest groups vie over issues

like funding and curricula we seem to have lost sight of the democratic purposes originally intended for public education. Public schools were envisioned by the Founders as democratically run institutions for instilling civic values but today's education system seems more concerned with producing good employees than good citizens. Meanwhile our country's diversity has eroded consensus about citizenship and the professionalization of educators has diminished public involvement in schools. This volume seeks to demonstrate that the democratic purposes of education are not outmoded ideas but can continue to be driving forces in public education. Nine original articles by some of today's leading education theorists cut a broad swath across the political spectrum to examine how those democratic purposes might be redefined and revived. It both establishes the intellectual foundation for revitalizing American schools and offers concrete ideas for how the educational process can be made more democratic. The authors make a case for better empirical research about the politics of education in order to both reconnect schools to their communities and help educators instill citizenship. An initial series of articles reexamines the original premise of American education as articulated by important thinkers like Jefferson and Dewey. A second group identifies flaws in how schools are currently governed and offers models for change. A final section analyzes the value conflicts posed by the twin strands of democratic socialization and governance and their implications for education policy. Spanning philosophy, history, sociology, and political science, this book brings together the best current thinking about the specifics of education policy: vouchers, charter schools, national testing, and about the role of deliberation in a democracy. It offers a cogent alternative to the exchange paradigm and shows how much more needs to be understood about an issue so vital to America's future.

This text offers valuable information for understanding the intent of NCLB, the positive effects of the legislation, the shortcomings of NCLB as currently authorized, and specific recommendations for improvements. Dolores Gribouski, Principal, Columbus Park Elementary School, Worcester, MA. A provocative examination of NCLB and how it can be improved. The pending reauthorization of the No Child Left Behind Act. NCLB has generated a spirited debate among educators. In this volume, a team of noted education scholars assess NCLB's performance-based system and the challenges of improving NCLB in order to meet the goals of the law. This edited resource by Gail L. Sunderman provides a comprehensive evaluation of NCLB and discusses options for modifying the legislation. With contributions from Gary Orfield, Linda Darling-Hammond, Catherine Snow, Robert Linn, and Daniel Koretz, among others, *Holding NCLB Accountable* examines the themes of

capacity accountability school reform and the law's impact on educating all students especially those from low income and diverse backgrounds This groundbreaking work assesses the efficacy of NCLB test based accountability and responds to critical questions such as How do we develop assessments and accountability systems that assist rather than interfere with educational progress How do we promote change without being counterproductive How do we create a viable educational agenda that is mindful of state and local capacity Presenting a range of perspectives the contributors identify how to revise NCLB in ways that will mitigate the negative aspects of the law and promote the conditions necessary for meaningful student learning
