security and a tolerable economic existence The contributors to this book take a new view of the reasons for this grave development in Africa the Balkans Central Asia and elsewhere They question traditional analyses of conflict which rely primarily on ethnic religious and cultural explanations since these do not take account of the increasingly obvious link between the growing scarcity of renewable resources and violent conflict in developing countries Shortages of cropland fresh water woodfuel pasture and marine resources cannot be ignored At the same time this book argues that one cannot understand domestic conflicts simply in environmental terms For environmental scarcity functions in a society within a complex matrix of historically derived economic and political situations In particular an unequal social distribution of resources exacerbates scarcity and fuels popular conflict     *Environmental Politics* Robert Garner,1996 Recently the environment has shot to the top of the political agenda This book provides an accessible introduction to this often complex area by identifying and exploring the dimensions of environmental politics     Deleuze/Guattari & Ecology Bernd Herzogenrath,2009 What does ecology mean if this concept cannot be grounded anymore in an essentialist and clear cut separation of nature and culture nature and man human and non human as Deleuze and Guattari in both their individual and collective works suggest Man and nature are not like two opposite terms confronting each other not even in the sense of bipolar opposites within a relationship of causation ideation or expression cause and effect subject and object etc rather they are one and the same essential reality the producer product Anti Oedipus 4 5 Deleuze Guattari s generalized ecology turns Ecology into a complex transdisciplinary project linking philosophy art sociology literature politics music history the hard and soft sciences Deleuze Guattari offer a perspective on ecology as a comprehensive natural ontology of complex material systems without falling into the trap of the Cartesian dualism of nature and culture that is still operative in much of the mainstream of ecological ecocritical approaches BOOK JACKET     The Moral Austerity of Environmental Decision Making John Martin Gillroy,Joe Bowersox,2002-06-17 A roundtable discussion on the missing ethical dimension in environmental policy     Monthly Catalog of United States Government Publications ,1988     **The World Book Encyclopedia** ,1993 An encyclopedia designed especially to meet the needs of elementary junior high and senior high school students     The Common Property Resource Digest ,1997     **Conservation/ecology, Resources for Environmental Education** David F.
