**The End of the Cold War and The Third World** Artemy Kalinovsky, Sergey Radchenko, 2011-04-19 This book brings together recent research on the end of the Cold War in the Third World and engages with ongoing debates about regional conflicts the role of great powers in the developing world and the role of international actors in conflict resolution Most of the recent scholarship on the end of the Cold War has focused on Europe or bilateral US Soviet relations By contrast relatively little has been written on the end of the Cold War in the Third World in Asia Africa and Latin America How did the great transformation of the world in the late 1980s affect regional conflicts and client relationships Who won and who lost in the Third World and why do so many Cold War era problems remain unresolved This book brings to light for the first time evidence from newly declassified archives in Russia the United States Eastern Europe as well as from private collections recent memoirs and interviews with key participants It goes further than anything published so far in systematically explaining both from the perspectives of the superpowers and the Third World countries what the end of bipolarity meant not only for the underdeveloped periphery so long enmeshed in ideological socio political and military conflicts sponsored by Washington Moscow or Beijing but also for the broader patterns of international relations This book will be of much interest to students of the Cold War war and conflict studies third world and development studies international history and IR in general

**Politics, Trade, and Development** Charles R. Dannehl, 1995 This study analyses the objectives behind Soviet economic aid to non communist Third World countries from 1955 through 1989 Policy implications of competing strategic and interactionist perspectives on Soviet Third World relations are examined with respect to three objectives politics trade and development and tested against the record of Soviet aid allocations The results reveal important similarities between the foreign aid objectives of the Soviet Union and the United States and generalise findings from previous studies of Western aid programs

**Political Economy Of The Brics Countries, The (In 3 Volumes)** , 2020-03-03 Over the past 20 years social scientists government officials and investors have expressed mounting interest in the BRICS countries which include Brazil Russia India China and South Africa These countries are widely viewed as both key actors in the global economy and important regional powers The Political Economy of the BRICS Countries is a three volume set that aims to address various crucial issues regarding these countries Volume 1 analyzes whether economic growth in the BRICS countries has been broad based and promoted equitable economic and social outcomes The authors examine specific dimensions of growth in these five economies that constrain their ability to act effectively and cohesively in international affairs Volume 2 considers how the BRICS have affected global economic governance and the international political economy Volume 3 provides various approaches to economic informality in the BRICS Moreover the chapters deal with several connections between informality and important political economic and institutional phenomena such as economic globalization and international aid economic development political regimes social capital political networks and political participation labor market rules and social policy

preferences The BRICS countries have attracted rising attention over the past two decades The volumes provide an in depth analysis of various key issues regarding these countries and chart a course for future research *Science and American Foreign Relations since World War II* Greg Whitesides,2019-01-03 Chronicles the critical role the sciences have played in American foreign relations since World War II **What Happened to the Soviet University?** Maia Chankeliani,2022-06-23 What Happened to the Soviet University explores how one of the largest geopolitical changes of the twentieth century the dissolution of the Soviet Union triggered and inspired the reconfiguration of the Soviet university The reader is invited to engage in a historical and sociological analysis of radical and incremental changes affecting sixty nine former Soviet universities since the early 1990s The study departs from traditional deficit oriented internalist explanations of change and illustrates how global flows of ideas people and finances have impacted higher education transformations in this region It also identifies areas of persistence The processes of marketisation internationalisation and academic liberation are analysed to show that universities have maintained certain traditions while adopting and internalising new ways of fulfilling their education and research functions Soviet universities have survived chaotic processes of post Soviet transformation and have self stabilised with time Most of them remain flagship institutions with large numbers of students and relatively high research productivity At the same time the majority of these universities operate in a top down one man management environment with limited institutional autonomy and academic freedom As the homes of intellectuals universities represent a duality of opportunity and threat Universities can nurture collective possibilities imagining and bringing about different futures At the same time or perhaps because of this the probability is high that universities will continue to be perceived as threats to governments with authoritarian inclinations One message to take away from this monograph is that the time is ripe for former Soviet universities to loosen their last remaining chains Nasser's Gamble Jesse Ferris,2013 Nasser s Gamble draws on declassified documents from six countries and original material in Arabic German Hebrew and Russian to present a new understanding of Egypt s disastrous five year intervention in Yemen which Egyptian president Gamal Abdel Nasser later referred to as my Vietnam Jesse Ferris argues that Nasser s attempt to export the Egyptian revolution to Yemen played a decisive role in destabilizing Egypt s relations with the Cold War powers tarnishing its image in the Arab world ruining its economy and driving its rulers to instigate the fatal series of missteps that led to war with Israel in 1967 Viewing the Six Day War as an unintended consequence of the Saudi Egyptian struggle over Yemen Ferris demonstrates that the most important Cold War conflict in the Middle East was not the clash between Israel and its neighbors It was the inter Arab struggle between monarchies and republics over power and legitimacy Egypt s defeat in the Arab Cold War set the stage for the rise of Saudi Arabia and political Islam Bold and provocative Nasser s Gamble brings to life a critical phase in the modern history of the Middle East Its compelling analysis of Egypt s fall from power in the 1960s offers new insights into the decline of Arab nationalism exposing the deep historical roots of the Arab Spring of 2011 **Education in/for Socialism** Tom

Griffiths, Zsuzsa Millei, 2017-10-02 This book re-examines aspects of historical socialism and includes case studies of education within twenty-first century socialist and post-socialist contexts shaped by the trajectories of historical socialism. Through these case studies, contributions offer insights into key questions: How are education systems and student subjectivities shaped by post-socialist trajectories and current regional politics, economics, and resistance movements? How do sedimented socialist discourses and geographies alter and contest the neoliberal child and childhood in post-socialist education? How have disjunctures between the rhetoric of historical Marxism-Leninism and the practices of educators, students, and student political organizations played out under socialism, and what could we learn from that for our present? How much emancipatory potential is there in the theories and practices of popular education for combatting injustice in the absence of mass revolutionary political parties? Above all, this volume affirms the need to move beyond simplistic accounts of historical socialism and post-socialist transitions. By exploring how socialist trajectories remain influential and have potential in our current contexts, this book contributes to the work of politically engaged educators working to re-imagine and reconstruct education. This book was originally published as a special issue of *Globalisation, Societies and Education*.

Foreign Aid in a Changing World Peter J. Burnell, 1997 This text explores the changes foreign aid has undergone between the late 1950s and the late 1990s. It examines these changes in the context of the wider economic and political developments. The book analyzes why some countries, both in the developing world and former communist states, seem to need assistance. It critically surveys the values-based and interests-based arguments in favour of aid and its many forms, encompassing the non-governmental and multicultural dimensions as well as the bilateral flows at national and sub-national levels, and focuses particularly on the contemporary emphasis on making aid dependent on democratization and good government. **The**
