Politics Of Ngos In Indonesia Developing Democracy And Managing A Movement:

The Politics of NGOs in Indonesia Bob S. Hadiwinata, 2003-08-29 This book deals with two major issues how Indonesian NGOs survived under Suharto's authoritarian rule and how NGOs contributed to the promotion of democracy in the post Suharto era If NGOs are to change from development to movement in democratic post Suharto Indonesia they must adjust not only their management and working style but also their very ideology This comprehensive study will be an important book for scholars interested in Asian studies Indonesian politics and development studies **The Politics of**

NGOs in Indonesia Bob Sugeng Hadiwinata, 2003 Non governmental organisations have proved crucial to political and social development in developing countries and perhaps none more so than Indonesia Southeast Asia's biggest country This book deals with two major issues how Indonesian NGOs survived under Suharto's authoritarian rule and how NGOs contributed to the promotion of democracy in the post Suharto era NGOs are often perceived as the cornerstones of vibrant civil society providing voices for the disenfranchised and creating centres of influence outside the state Yet through an analysis of primary material Bob S Hadiwinata's study argues that NGOs must adjust their activities in accordance with local social and political conditions and that NGOs are sometimes at odds with the local communities they purport to represent If NGOs are to change from development to movement in democratic post Suharto Indonesia they must adjust not only their management and working style but also their very ideology This comprehensive study is suitable for scholars interested in Asian studies Indonesian politics and development studies The Politics of NGOs in Indonesia Bob S.

Kuah, Jason Eng Thye Tan, 2016-11-25 Despite the enshrinement by the United Nations in 1948 of education as a universal human right and despite the ideals espoused in the Education for All declaration in Dakar in 1990 it is patently clear that these ideals remain far from realized for a substantial portion of humankind Especially at risk are vulnerable segments of society such as women migrants refugees rural populations ethnic minorities and the financially disadvantaged This book centres on efforts to provide education to these marginalized populations in the East and Southeast Asian region Of particular interest are questions of financing and control As various governments have struggled to manage the escalating costs of building schools training teachers and educating students the topic of public private partnerships in educational provision has assumed growing importance The seven chapters presented here highlight a variety of partnerships among state civil society and non government organisations NGOs *Verfassung und Recht in Übersee*, 2004 **Journal of the**

Asiatic Society of Bangladesh ,2006 Performing Development: Women's NGOs, Donors, and the Postcolonial Ghanaian State Saida Hodzic,2006 This work challenges the conviction pervasive in the anthropology of neoliberalism that NGOs weaken the state and argues that analyses of power relations in development must begin with a nuanced understanding of NGO predicaments By closely attending to the complex social effects of NGO interventions I revise dominant portraits of NGOs as either pawns of neoliberal development or revolutionaries of the global South **Internationale Bibliographie der Rezensionen wissenschaftlicher Literatur** ,2007 The Politics of Death Aurel Croissant,Beate Martín,Sascha Kneip,2006 This volume analyzes four aspects of political violence in Southeast Asia elections and violence intra ethnic conflict communist insurgency terrorism and religious extremism and lethal crime and politics Together the ten case studies on Cambodia Indonesia Malaysia the Philippines and Thailand challenge the idea that democratic governance will bring an end to internal violent conflict As some examples in the region suggest semi democratic polities in Southeast Asia even may be more successful in reducing levels of internal violence compared to new democracies in their neighbourhood and other types of political regime they have tried in the past **Opposing Suharto** Edward Aspinall,2005 Opposing Suharto presents an account of democratization in the world s fourth most populous country Indonesia It describes how opposition groups challenged the long time ruler President Suharto and his military based regime forcing him to resign in 1998 The book s main purpose is to explain how ordinary people can bring about political change in a repressive authoritarian regime It does this by telling the story of an array of dissident groups nongovernmental organizations student activists and political party workers as they tried to expand democratic space in the last decade of Suharto s rule This book is an important study not only for readers interested in contemporary Indonesia and political change in Asia but also for all those interested in democratization processes elsewhere in the world Unlike most other books on Indonesia and unlike many books on democratization it provides an account from the perspective of those who were struggling to bring about change **Hazard Or Right?** Irene Hadiprayitno,2009 Contrary to the generally positive connotation of development as structural improvement in people s well being development policies programmes and projects often affect people s lives in a negative way Is there then a protection against such development hazards The question is highly topical as about ten million people annually enter the cycle of forced displacement and relocation due to development projects Their lack of access to decision making on development policies is part of the problem In this context the internationally declared right to development might offer a solution as it stipulates free and meaningful participation The analyses in this thesis show that the official and international consensus on the moral ideas behind the right to development is insufficient to guarantee proliferation and implementation of that discourse at the grass root level In Indonesia efforts towards implementation reflect different dynamics entailing competing encounters between all stakeholders which sometimes are unfavourable to the poor Notably the enforcement of the right to development as both a legal resource and a political instrument to change development practices needs to be

firmly rooted in an enabling rather than adverse national environment While opening a new dialogue on the right to development as an instrument to combat development hazards this book reveals the complex interface between human rights and development as actually practised Indonesia Betrayed Elizabeth Fuller Collins,2007-07-31 Supporters of neoliberalism claim that free markets lead to economic growth the creation of a middle class and the establishment of democratically accountable governments Critics point to a widening gap between rich and poor as countries compete to win foreign investment and to the effects on the poor of neoliberal programs that restrict funding for health education and welfare This book offers a ground level view from Sumatra of the realities behind these debates during the final years of Suharto s New Order and the beginning of a transition to more democratic government The author s wealth of primary data from ten years of interviews and local newspaper reportage 1994 2004 shows how farmers and laborers were dispossessed by both government policies and crony capitalism Elizabeth Collins relates the stories of populist efforts in South Sumatra to combat development policies responsible for producing extreme poverty and allowing corruption to flourish She describes how student led NGOs worked with farmers fighting to retain their livelihoods in the lowland forests of South Sumatra She reports on a local branch of the Indonesian Environmental Forum as it battled multinational companies and Indonesian conglomerates responsible for damage to the environment on contract workers protesting exploitation by a company with ties to a Suharto crony and on systemic corruption under the New Order which spread throughout all levels of government and into civil society organizations She examines the sometimes strained relationships between Islamists and human rights activists arguing that there is no inherent contradiction between Islam and democratic politics Collins concludes that for real change to occur neoliberal capitalism must be recognized as a utopian ideology democracy imperfect as it is offers the best hope for sustainable development in Indonesia *NGOs and Civil Society in Thailand* Theerapat Ungsuchaval,2022-09-28 *NGOs and Civil Society in Thailand* critically examines the relationships of civil society to nongovernmental organisations in Thailand and examines the NGOisation of civil society how NGOs are funded and governed and in what way the NGOs has been shaped to work with the funder NGOisation is a phenomenon by which the funded organisations are impelled to transform suit their funder as reliable partners Focusing on Thailand an Asian country where NGOs have been heavily relied on the public sector for funding the book analyses the relations between NGOs and their significant funder Thailand Health Promotion Foundation THPF one of the biggest and most influential players in the NGO sector As the NGO funded organisations are impelled to transform and adapt to become more professionalised institutionalised bureaucratised and depoliticised to suit their funder as reliable partners their characteristics and relations with the state are complex and interactive Engaging with key stakeholders in the field of NGO and public governance in Thailand the book demonstrates how THPF changed the NGO landscape integrating them and innovatively coordinating non state initiatives into public governance system A novel contribution to the study of NGOs and the state the book also addresses NGO transformation

politics and governance It will be of interest to academics working on Asian Politics civil society public policy and public management

Democracy in Indonesia Bob Sugeng Hadiwinata, Christoph Schuck, 2007 Despite challenges and problems in sustaining democratic norms and values in the final analysis can it honestly be said that there is no better political system for Indonesia than Democracy After more than eight years of political reform it is necessary to analyze Indonesia's democratization process This book offers coherent insights into recent Indonesian politics and provides a theoretically based evaluation of the present situation such as regard to the rule of law the security sector and the politics of identity The question is raised and examined whether Churchill's famous quote about Democracy being the worst form of Government except all those others that have been tried from time to time holds true for Indonesia

Renegotiating Boundaries Henk Schulte Nordholt, Geert Arend van Klinken, 2007 For decades almost the only social scientists who visited Indonesia's provinces were anthropologists Anybody interested in politics or economics spent most of their time in Jakarta where the action was Our view of the world's fourth largest country threatened to become simplistic lacking that essential graininess Then in 1998 Indonesia was plunged into a crisis that could not be understood with simplistic tools After 32 years of enforced stability the New Order was at an end Things began to happen in the provinces that no one was prepared for Democratization was one decentralization another Ethnic and religious identities emerged that had lain buried under the blanket of the New Order's modernizing ideology Unfamiliar sometimes violent forms of political competition and of rentseeking came to light Decentralization was often connected with the neo liberal desire to reduce state powers and make room for free trade and democracy To what extent were the goals of good governance and a stronger civil society achieved How much of the process was captured by regional elites to increase their own powers Amidst the new identity politics what has happened to citizenship These are among the central questions addressed in this book This volume is the result of a two year research project at KITLV It brings together an international group of 24 scholars mainly from Indonesia and the Netherlands but also from the United States Australia Germany Canada and Portugal Full text Open Access

Culture, Identity, and Religion in Southeast Asia Alistair D. B. Cook, 2007 I have read the draft of this book sent to me by the editor After reading this draft I do think this book is valuable and timely It discusses the contemporary issues that have worried many people in the present world terrorism human rights Islamic radicalism and the problem of identity in the Singaporean capitalism These issues are not discussed in the theoretical abstract way it also doesn't mean that theories are not discussed at all but in the context of various concrete societies The book deals with one of the above issues in Malaysia Singapore and Indonesia Aceh and Sumenep in Madura Each issue is written by a different author that has studied the issue thoroughly So the book is a collection of research done by specialists of these issues Two essays on Southeast Asia one on health and the other on human security give the general picture of this region acting as a broad introduction of the chapters that follow Each chapter has been written professionally and the readers will learn many things from each of them One has to read the

chapter in order to really appreciate them Therefore I really recommend that this manuscript to be published as a book in order to get a large audience One shortcoming though this book deals with three countries only Malaysia Singapore and Indonesia albeit these three are the important countries in the region Other important Southeast Asian countries such as Thailand the Philippines and Burma are not discussed individually With the omission of these countries it thus can be argued whether this book can represent the Southeast Asian region Also in dealing with Indonesia the chapters talk on sub national level namely on Aceh province and a peripheral city Sumenep in the island of Madura East Java while Malaysia and Singapore are dealt on the level of nation state To conclude even with these shortcomings this book is still valuable Therefore I would like to recommend it be published Arief Budiman Foundation Professor of Indonesian Asia Institute The University of Melbourne Australia *State of the World's Volunteerism Report, 2011* ,2011 The SWVR State of the World s Volunteerism Report promotes a better understanding of volunteerism It demonstrates the universality scope and reach of volunteerism along with new trends in the twenty first century The report examines important contributions in diverse fields such as sustainable livelihoods social inclusion social cohesion and disaster risk reduction By suggesting how volunteerism can be taken forward the SWVR also provides an alternative vision of a better society Publisher description **Book Review Index** ,2006 Every 3rd issue is a quarterly cumulation **Radicalising Thailand** Ji Ungpakorn,2003 **Fu nü yan jiu** ,2008
