## **Range Of Philosophy Introductory Reading:**

**The Range of Philosophy** Harold Hopper Titus, Maylon H. Hepp, 1964      Worldviews Richard DeWitt, 2018-06-05  
Winner of the 2018 Choice Award for Outstanding Academic Title PRAISE FOR PREVIOUS EDITIONS This is a brilliantly clear introduction and indeed reframing of the history and philosophy of science in terms of worldviews and their elements In addition the book is incredibly well informed from both a scientific and philosophical angle Highly recommended Scientific and Medical Network Unlike many other introductions to philosophy of science DeWitt's book is at once historically informative and philosophically thorough and rigorous Chapter notes suggested readings and references enhance its value Choice Written in clear and comprehensible prose and supplemented by effective diagrams and examples Worldviews is an ideal text for anyone new to the history and philosophy of science As the reader will come to find out DeWitt is a gifted writer with the unique ability to break down complex and technical concepts into digestible parts making Worldviews a welcoming and not overwhelming book for the introductory reader History and Philosophy of the Life Sciences vol 28 2 Now in its third edition Worldviews An Introduction to the History and Philosophy of Science strengthens its reputation as the most accessible and teachable introduction to the history and philosophy of science on the market Geared toward engaging undergraduates and those approaching the history and philosophy of science for the first time this intellectually provocative volume takes advantage of its author's extensive teaching experience parsing complex ideas using straightforward and sensible examples drawn from the physical sciences Building on the foundations which earned the book its critical acclaim author Richard DeWitt considers fundamental issues in the philosophy of science through the historical worldviews that influenced them charting the evolution of Western science through the rise and fall of dominant systems of thought Chapters have been updated to include discussion of recent findings in quantum theory general relativity and evolutionary theory and two new chapters exclusive to the third edition enrich its engagement with radical developments in contemporary science At a time in modern history when the nature of truth fact and reality seem increasingly controversial the third edition of Worldviews presents complex concepts with clarity and verve and prepares inquisitive minds to engage critically with some of the most exciting questions in the philosophy of science      **The Range of Philosophy** Harold Hopper Titus, Maylon H. Hepp, 1974      **Catalog of Copyright Entries. Third Series** Library of Congress. Copyright Office, 1976      American Book Publishing Record, 1977-03-31 Here's quick access to more than 490 000 titles published from 1970 to 1984 arranged in Dewey sequence with sections for Adult and Juvenile Fiction Author and Title indexes are included and a Subject Guide correlates primary subjects with Dewey and LC classification numbers These cumulative records are available in three separate sets      **Lives of the Eminent Philosophers** Diogenes Laertius, 2018-04-16 Everyone wants to live a meaningful life Long before our own day of self help books offering twelve step programs and other guides to attain happiness the philosophers of ancient Greece explored the riddle of what makes a life worth living producing a wide variety of ideas and

examples to follow This rich tradition was recast by Diogenes Laertius into an anthology a miscellany of maxims and anecdotes that generations of Western readers have consulted for edification as well as entertainment ever since the Lives of the Eminent Philosophers first compiled in the third century AD came to prominence in Renaissance Italy To this day it remains a crucial source for much of what we know about the origins and practice of philosophy in ancient Greece covering a longer period of time and a larger number of figures from Pythagoras and Socrates to Aristotle and Epicurus than any other ancient source This new edition of the Lives in a faithful and eminently readable translation by Pamela Mensch is the first rendering of the complete text into English in nearly a century Lavishly illustrated with a vast array of artwork that attests to the profound impact of Diogenes on the Western imagination this edition also includes detailed notes and a variety of newly commissioned essays by leading scholars that shed light on the work s historical and intellectual contexts as well as its rich legacy The result is a capacious fascinating and charming compendium of ancient inspiration and instruction
