Humboldt-Toiyabe National Forest (N.F.), Martin Basin Rangeland Project, 2010

Army Life Albert O. Marshall, 1883 It is also the story of a 20 year old private in the military whose engaging writing belies his age He tells of the battles he fought the games he played of his friends fellow soldiers and officers and of the regiment's activities in Missouri and Arkansas at Vicksburg in Louisiana and on the Texas Gulf Coast It is not a complete story of the 33rd Illinois Infantry Regiment known as the Normal Regiment nor is it a complete roster of regiment members of those killed or wounded

Theater of a Separate War Thomas W. Cutrer, 2017-03-16 Though its most famous battles were waged in the East at Antietam Gettysburg and throughout Virginia the Civil War was clearly a conflict that raged across a continent From cotton rich Texas and the fields of Kansas through Indian Territory and into the high desert of New Mexico the trans Mississippi theater was site of major clashes from the war's earliest days through the surrenders of Confederate generals Edmund Kirby Smith and Stand Waite in June 1865 In this comprehensive military history of the war west of the Mississippi River Thomas W Cutrer shows that the theater's distance

from events in the East does not diminish its importance to the unfolding of the larger struggle Theater of a Separate War details the battles between North and South in these far flung regions assessing the complex political and military strategies on both sides While providing the definitive history of the rise and fall of the South s armies in the far West Cutrer shows even if the region s influence on the Confederacy s cause waned its role persisted well beyond the fall of Richmond and Lee s surrender to Grant In this masterful study Cutrer offers a fresh perspective on an often overlooked aspect of Civil War history

Cradle to Grave : Life, Work, and Death at the Lake Superior Copper Mines Larry Lankton Associate Professor of History Michigan Technological University,1991-03-07 Concentrating on technology economics labor and social history Cradle to Grave documents the full life cycle of one of America s great mineral ranges from the 1840s to the 1960s Lankton examines the workers world underground but is equally concerned with the mining communities on the surface For the first fifty years of development these mining communities remained remarkably harmonious even while new large companies obliterated traditional forms of organization and work within the industry By 1890 however the Lake Superior copper industry of upper Michigan started facing many challenges including strong economic competition and a declining profit margin growing worker dissatisfaction with both living and working conditions and erosion of the companies hegemony in a district they once controlled Lankton traces technological changes within the mines and provides a thorough investigation of mine accidents and safety He then focuses on social and labor history dealing especially with the issue of how company paternalism exerted social control over the work force A social history of technology Cradle to Grave will appeal to labor social and business historians
