Pattern Of Doctrines:

Feminist Reconstructions of Christian Doctrine Kathryn Greene-McCreight, 2000 What is the relationship between feminist theology and classical Christian theology Is feminist theology Christian and if so in what respect and to what extent This study seeks to analyze and evaluate the relation of feminist reconstructions to traditional Christian teaching Greene McCreight uses the extent to which the biblical depiction of God is allowed to guide theological hermeneutics as a test of orthodoxy She looks at the writings of a wide range of contemporary feminist theologians discusses their doctrinal patterns and demonstrates how the Bible is used in undergirding their theological reconstructions **A Series of Pamphlets on the Doctrines of the Gospel** Orson Pratt, 1899 A Dictionary of Christian Biography, Literature, Sects and Doctrines: A-D William Smith, Henry Wace, 1877 **A Dictionary of Christian Biography, Literature, Sects and Doctrines Being a Continuation of the Dictionary of the Bible** William Smith, 1877 *The whole works of Jeremy Taylor* Jeremy Taylor, 1883 Indian Wisdom Or Exemples of the Religions, Philosophical, and Ethical Doctrines of the Hindus: with a Brief History of the Chief Departments of Sanskrit Literature. 3. Ed Sir Monier Monier-Williams, 1876 **Indian Wisdom, or examples of the religious, philosophical, and ethical doctrines of the Hindūs, with a brief history of the chief departments of Sanskrit literature, and some account of the past and present condition of India, moral and intellectual** Sir Monier Monier-Williams, 1876 **Libertarianism** Eric Mack, 2018-10-08 The essence of libertarianism is the view that coercive political institutions such as the state are justified only insofar as they function to protect each person's liberty to pursue their own goals and well being in their own way Libertarians accordingly argue that any attempt to enforce top down concepts of social justice or economic equality are fundamentally misconceived In this book leading expert Eric Mack provides a rigorous and clear account of the philosophical principles of libertarianism He offers accounts of three distinctive schools of libertarian thought which he labels the natural rights approach the cooperation to mutual advantage approach and the indirect consequentialist approach After examining the historical roots of these approaches in the thought of figures such as John Locke and David Hume he provides illuminating accounts of the foundational arguments and the theories of economic justice offered by Robert Nozick and F A Hayek He then examines a range of other debates such as those surrounding the nature of the minimal state and those between critics and defenders of libertarianism This book will be essential reading for anyone interested in political philosophy political ideologies and the nature of liberty and state authority from students and scholars to general readers **Seeking God in Science** Bradley Monton, 2009-07-20 The doctrine of intelligent design is often the subject of acrimonious debate Seeking God in Science cuts through the rhetoric that distorts the debates between religious and secular camps Bradley Monton a philosopher of science and an atheist carefully considers the arguments for intelligent design and argues that intelligent design deserves serious consideration as a scientific theory Monton also gives a lucid account of the debate surrounding the inclusion of intelligent design in public schools and presents

reason why students science education could benefit from a careful consideration of the arguments for and against it

Rasmussen,Aeon J. Skoble,Douglas J. Den Uyl,2011-01-01 Tibor R Machan one of the most prolific and wide ranging philosophers of our time has been known internationally for decades through his public speaking opinion columns and of course his scholarly writing This collection of essays seeks to explore Machan s philosophical ideas by considering some of the basic issues with which he has been concerned throughout his long and highly productive career The essays range from

those concerned with the nature of reality and knowledge to those dealing with the nature of the political legal order Topics such as the character of human nature free choice and responsibility the justification of individual rights and the place of justice in the contemporary welfare state among other basic issues are discussed in these essays Because Machan himself dealt with questions of central importance the essays should appeal to a wide range of interests and disciplines in philosophy and related fields But the essays are also written by people accomplished in their own right and thus seek not only to comment on Machan but to make their own contribution to enduring philosophical issues The volume should be of value to both students and faculty alike **Lectures on the Doctrine of Justification** John Henry Newman, 1897
