Rational Approach to Human Life is an exposition of how and what man is assigned to do in his life He is allowed to do
everything that is reasonably good and just for his sustenance What is impermissible is injustice for it breeds corruption The
ultimate goal for mankind is to explore the environment around him and make it habitable Not only this planet but the whole
Cosmos is made subservient to him His ultimate abode is the paradise of his dream which he has to find on his own That is
the place where his command would be his wish This is what Islam aims mankind to achieve which is possible only through
knowledge and wisdom Reasoning with God Khaled Abou El Fadl,2002 Is Islam incompatible with rational thought This is

the question at the heart of this challenging study by a leading scholar Tracing the conflict between reason and religion right back to the disputes between medieval Islamic philosophers the author examines every part of the debate including such major themes as good evil and the nature of divine will In addition to providing a full survey of the debate between faith and reason he also proposes an approach for taking reasoning beyond the traditional boundaries of textual interpretation to a fully realized engagement with the divine

Reason & Rationality in the Quran Ibrahim Kalin, In this short yet timely book Dr Ibrahim Kalin based on his thorough study of the history of philosophy analyses the categories of reason and rationality within the Islamic intellectual context as it was shaped by the foundational theory underlying the Quran and as developed by the Islamic theological and intellectual tradition Dr Kalin argues that far from being a self standing entity reason functions within a larger context of meaning and existence intelligibility and moral thinking He shows clearly how the Quranic perspective of rationality moves us beyond the internal workings of a single disengaged mind and places us with a larger context of ontological significance

Crisis of Islamic Civilization Ali A. Allawi, 2009-04-28 Islam as a religion is central to the lives of over a billion people but its outer expression as a distinctive civilization has been undergoing a monumental crisis Buffeted by powerful adverse currents Islamic civilization today is a shadow of its former self The most disturbing and possibly fatal of these currents the imperial expansion of the West into Muslim lands and the blast of modernity that accompanied it are now compounded by a third giant wave globalization These forces have increasingly tested Islam and Islamic civilization for validity adaptability and the ability to hold on to the loyalty of Muslims says Ali A Allawi in his provocative new book While the faith has proved resilient in the face of these challenges other aspects of Islamic civilization have atrophied or died Allawi contends and Islamic civilization is now undergoing its last crisis The book explores how Islamic civilization began to unravel under colonial rule as its institutions laws and economies were often replaced by inadequate modern equivalents Allawi also examines the backlash expressed through the increasing religiosity of Muslim societies and the spectacular rise of political Islam and its terrorist offshoots Assessing the status of each of the building blocks of Islamic civilization the author concludes that Islamic civilization cannot survive without the vital spirituality that underpinned it in the past He identifies a key set of principles for moving forward principles that will surprise some and anger others yet clearly must be considered
