**Royal College of Speech & Language Therapists Clinical Guidelines** Royal College of Speech &

Language Therapists, 2005      **Royal College of Speech & Language Therapists**, 2017 The aim of these guidelines is to provide clinicians managers and service users with statements regarding the clinical management of specific disorders or conditions and in some instances particular populations The guidelines assist in the clinical decision making process by providing information on what is considered to be the minimum best practice Each guideline contains recommendations that are explicit statements providing specific clinical guidance on the assessment and management of each area Each recommendation is supported by evidence from the literature or is based upon the consensus of clinical experts Sections include Pre School children with communication language speech needs School aged children with speech language communication difficulties Autistic spectrum disorders Cleft palate and velopharyngeal abnormalities Clinical voice disorders Deafness hearing loss Disorders of fluency Disorders of feeding eating drinking swallowing dysphagia Disorders of mental health dementia Dysarthria Aphasia Head neck cancer A Position Statement on working with Adults with Learning Disabilities is included in place of a guideline Every practising UK speech language therapist needs to have access to these guidelines and they will also be of value to health social and educational professionals that may become involved with individuals who have a communication or swallowing disorder Provided by publisher      Speech and Language Therapy Myra Kersner, Jannet A. Wright, 2001 This major text focuses on the decision making process in the assessment and management of children with speech and language problems Individual chapters written by experts in their field illustrate how the decisions may vary within different work settings and how they may need to be adapted when working with specific client groups The book also provides an overview of the skills required by the developing professional and the ways in which speech and language therapists may work with others The book will be relevant to speech and language therapy students and potential students specialist teachers in training newly qualified therapists therapists returning to the profession specialist teachers and Special Educational Needs Coordinators      *Clinical Linguistics* Louise Cummings, 2008 Louise Cummings provides a comprehensive introduction to speech and language therapy which will give SLT students an excellent starting point for a wide range of communication impairments      **Psychological Well Being and Acquired Communication Impairment** Shelagh Brumfitt, 2010 Psychological Well Being and Acquired Communication Impairments is an essential resource for all health professionals working with this complex client group It offers a unique multi disciplinary approach to the subject looking at the evidence base as well as clinical practice The book covers both the assessment of people with acquired communication impairments as well as reviewing the available interventional approaches Chapters cover such key topics as approaches to the assessment of anxiety and depression the impact of brain injury the role of an assessment of mood and the role of self esteem FEATURES an expert team of academics and clinicians case studies links theory to practice      **Speech and Language Clinical Process and Practice** Monica Bray, Celia Todd, 1999 With this practical resource speech and language therapy students and practitioners will discover how to link classroom theories and methods to standards attitudes

and behaviors that will help them ensure success in clinical practice The text leads students and professionals from coursework to practice with guidance on intervention assessment therapy interaction with family members and staff work in various settings maintenance of records and written reports The authors also reveal the prerequisite skills and aptitude and the understanding of practice that individuals need to perform successfully as speech language therapy clinicians The combination of ideas case illustrations and concepts offers direction and support to students as they embark on their professional careers Experienced clinicians and professionals returning to the field after an absence will also find this resource very helpful

**Innovations in Professional Education for Speech and Language Therapy** Shelagh Brumfitt, 2004 The methods by which a student becomes a speech and language therapist have developed since the 1970s and have been influenced by different models of higher and professional education Although it is comparatively easy to change an aspect of course content for example to increase the number of learning hours on autism the means by which the student learns to become a competent professional in practice are more complex This text discusses some of the exciting ways we are examining issues in professional education It covers actual content for example the introduction of dysphagia to the curriculum new methods for learning problem based learning and information technology developments how speech and language therapists develop competence and what is critical in the transition to becoming a qualified therapist The longstanding placement problem is addressed by innovative work using different professional learning models such as peer placements and school based placements The reader is provided with detailed practical advice about how to approach these models The book represents some of the current work in universities and speech and language services in the UK and reveals the creativity and commitment to an expanding subject area *Linguistics and Language Behavior Abstracts*, 2007-04

*Language Disorders in Speakers of Chinese* Sam-po Law, Brendan Weekes, Anita M-Y. Wong, 2009 Research interest in Chinese language impairments can be traced back to the 1930s Despite the significant advances made in this research field over the past two decades this body of work has not received the attention it deserves This book fills a gap in the field and represents the latest research in Chinese language disorders in children and adults The work presented in this volume addresses theoretical and clinical issues relevant to specific language impairment in children developmental dyslexia phonological impairment in children and adults and acquired dyslexia and dysgraphia The book will appeal to interdisciplinary researchers from cognitive psychology linguistics and neurology with interests in the Chinese language speech language therapists working with Chinese speaking clients educationists in particular language teachers of children learning to read and write Chinese as well as neuroscientists It will serve as a good reference book for advanced level undergraduate courses or graduate courses in speech language pathologies and psycholinguistics *Guide to Libraries and Information Sources in Medicine and Health Care* Paul Wilson, 2000 Providing detailed entries on a wide range of libraries and information sources in the fields of medicine health care and alternative medicine this directory is now in its 3rd edition

Enhanced listings for Internet references are included      **The British National Bibliography** Arthur James Wells,2005

Management of Communication Needs in People with Learning Disability Sam Abudarham,Angela Hurd,2002-04-29 This practically oriented book has been predominantly targeted at undergraduate speech and language therapy students speech and language therapists who have recently started work in this field and other professionals working with people with learning disabilities All the authors have had practical experience and or conducted research in this field The presentation of the chapters follow a need to know order starting with an exploration of a range of Service Delivery issues continuing with theoretical and practical issues related to Appraisal and Assessment of Communication Needs and quickly moving on to management issues starting with Management Models which is followed by a chapter on Early Intervention work on Pre symbolic and Pre linguistic development and transition from Word to Phrase For those requiring to extend their knowledge in more specialised areas a number of chapters deal with subjects such as the use of Augmentative and Alternative Communication and working with Parents and Members of Related Professions The last two chapters address topics which have more recently attracted attention these being the management of the communication needs of service users with Challenging Behaviour and those with Dual Diagnosis learning disability and mental illness combined Most chapters include case studies to illustrate a number of practice issues Whereas the main focus is on children with learning disability where appropriate discussion relevant to adults with learning disability is included      **International Journal of Speech-language Pathology** ,2008      *Speech and Language Therapy* Carolyn Anderson,Anna van der Gaag,2005-11-29 This book demonstrates novel ways of working across a wide variety of clinical areas including children people with learning difficulties and adults with acquired communication disabilities It explores the paradigm shifts beyond technical rational approaches to professional artistry underpinned by reflective practice and user involvement It discusses values understanding expectations of clients the commonalities of therapy the Care Aims model and the biopsychosocial model in dysphasia management The contributors look at the three elements of competence knowledge skills and attitudes and attributes to demonstrate the relationship between observable skills and the hidden influential aspects of competence that play a vital role in making a practitioner professionally competent By bringing together constructs and challenges from differing areas of practice the book will stimulate readers to think about their work in new ways by learning from experts outside their own scope of practice      **Head and Neck Cancer** Dr. Elizabeth C. Ward,Corina J. van As-Brooks,2007 Accompanying CD ROM contains audio and video vignettes giving case examples covering swallowing disorders stoma care nonsurgical and prosthetic voice restoration rehabilitation of olfaction as well as personal patient experiences and reflections from adult and pediatric laryngectomees P 4 of cover
