Re Visioning Secondary Art Education:

Re-visioning Frances Louise Henry, Phyllis Luckenbach-Sawyers, 1985-01-01 **ReVisioning** James Romaine, Linda Stratford, 2014-05-20 *ReVisioning Critical Methods of Seeing Christianity in the History of Art* examines the application of art historical methods to the history of Christianity and art. As methods of art history have become more interdisciplinary, there has been a notable emergence of discussions of religion in art history as well as related fields such as visual culture and theology. This book represents the first critical examination of scholarly methodologies applied to the study of Christian subjects, themes, and contexts in art. *ReVisioning* contains original work from a range of scholars, each of whom has addressed the question in regard to a well-known work of art or body of work. How have particular methods of art history been applied and with what effect? The study moves from the third century to the present, providing extensive treatment and analysis of art historical methods applied to the history of Christianity and art. *Handbook of Research and Policy in Art Education* Elliot W. Eisner, Michael D. Day, 2004-04-12 This work provides an overview of the progress that has characterized the field of research and policy in art education. It profiles and integrates history, policy, learning, curriculum, and instruction, assessment, and competing perspectives. *Handbook of Research on Revisioning and Reconstructing Higher Education After Global Crises* Hai-Jew, Shalin, 2023-01-20 Global challenges in a chaotic context are ever in play, emerging and receding in time. At the present moment, the global challenges of the COVID-19 pandemic have resulted in several years of mass-scale challenges and lost learning and socialization from K-12 to higher education for many. The pandemic has been a high consequence and continuing event. Universities and colleges have been under unprecedented budgetary strain. Despite all the immense and irreparable human losses, humanity is moving forward with lessons from the past several years. *The Handbook of Research on Revisioning and Reconstructing Higher Education After Global Crises* explores how global higher education will recover from the global pandemic at the micro, meso, and macro levels and how they will re-establish their relevance for teaching and learning, research, and innovation and social contributions. Covering topics such as campus life, online library services, and Indigenous students, this major reference work is an essential resource for educators and administrators of higher education, government officials, students of higher education, librarians, researchers, and academicians. *Studies in Art Education*, 2002 **Revolutionizing Arts Education in K-12 Classrooms through Technological Integration** Lemon, Narelle, 2015-04-30 Educational technologies are becoming more commonplace across the K-12 curriculum. In particular, the use of innovative digital technology is expanding the potential of arts education, presenting new opportunities and challenges to both curricular design and pedagogical practice. *Revolutionizing Arts Education in K-12 Classrooms through Technological Integration* brings together a variety of perspectives, research, and case studies that emphasize a pedagogical awareness of diverse learning styles while highlighting issues of ethics and equality across the educational landscape. This timely publication is aimed at K-12 arts educators leading classrooms focusing on dance, drama, media, music, and the visual arts, as
