Song of Songs F. Scott Spencer, 2017-02-01 Arguably the biggest blockbuster love song ever composed the Song of Songs holds a unique place in Jewish and Christian canons as the holiest book in the minds of some readers and the sexiest in its language and imagery This commentary aims to interpret this vibrant Song in a contemporary feminist key informed by close linguistic literary and social cultural analysis Though finding much in the Song to celebrate for women and men in their embodied passionate lives this work also exposes tensions vulnerabilities and inequities between the sexes and among society at large just what we would expect of a perceptive poignant love ballad that still tops the charts

The Minnesinger Heinrich Von Morungen Rodney W. Fisher, 1996 Scholars of medieval German literature as well as medievalists in other vernacular literatures readily appreciate the contributions of Heinrich von Morungen to the art of the love song Minnesang in Germany This new study of the artist and his work is an original contribution to scholarship as well as a discussion of the isolated commentaries and translations that have hitherto been available Professor Fisher provides a deep insight into Morungen and his musical and poetical artistry and also discusses the performance elements of medieval German song The main body of the study includes translations of Morungen s songs which preserve their original rhythms and rhyme patterns Each song is translated where the verse translation is inadequate or where the original text presents difficulties this is commented on in the notes There is a separate discussion of Morungen s use of metaphors and their relevance to his terminology of love

From Studio to Stage Barbara M. Doscher, 2002-06-03 The repertoire files of the late Dr Barbara Doscher in which she noted her tips observations on each particular piece and notes on how to best teach it comprise a unique trove of wisdom unmatched by any other source Laboriously transcribed and annotated by John Nix one of

Doscher's students the notes are presented here as a companion volume to her best selling text *The Functional Unity of the Singing Voice*. Entries are divided by broad category: art song, arias, folk songs, oratorio, musicals, etc. and are arranged by song title. Each entry includes author, poet or librettist, key's available, ranges for each key, tessitura, difficulty level, voice types, comments, a summary of the text and notes as to genre, language and editions available. Five comprehensive indexes facilitate searching. As a guide to selecting vocal repertoire, this book's practical and sometimes colorful comments on each song or aria will assist the vocal instructor in matching the student's ability and range to the appropriate piece. This distillation of Barbara Doscher's many years of experience in the teaching studio is a necessary addition to any vocal instructor's collection as well as a valuable resource for the individual singer.
