Reading Abstract Expressionism Context And Critique:

Reading Abstract Expressionism Ellen G. Landau, Richard Pipes, 1991-04-24 Abstract Expressionism is arguably the most important art movement in postwar America Many of its creators and critics became celebrities participating in heated public debates that were published in newspapers magazines and exhibition catalogues This up to date anthology is the first comprehensive collection of key critical writings about Abstract Expressionism from its inception in the 1940s to the present day

Rereading Abstract Expressionism, Clement Greenberg and the Cold War Daniel Neofetou, 2021-09-23 Since the 1970s it has been argued that Abstract Expressionism was exhibited abroad by the post war US establishment in an attempt to culturally match and reinforce its newfound economic and military dominance The account of Abstract Expressionism developed by the American critic Clement Greenberg is often identified as central to these efforts However this book rereads Greenberg s account through Theodor Adorno and Maurice Merleau Ponty in order to contend that Greenberg s criticism in fact testifies to how Abstract Expressionism opposes the ends to which it was deployed With reference not only to the most famous artists of the movement but also female artists and artists of colour whom Greenberg himself neglected such as Joan Mitchell and Norman Lewis it is argued that far from reinforcing the capitalist status quo Abstract Expressionism engages corporeal and affective elements of experience dismissed or delegitimated by capitalism and promises a world that would do justice to them

Abstract Expressionism at the Museum of Modern Art Ann Temkin, 2010 More than sixty years have passed since the critic Robert Coates writing in The New Yorker in 1946 first used the term Abstract Expressionism to describe the richly coloured canvases of Hans Hofmann The name stuck and over the years it has come to designate the paintings and sculptures of artists as different as Jackson Pollock and Barnett Newman Willem de Kooning and Mark Rothko Lee Krasner and David Smith The achievements of this generation which put New York City on the map as the centre of the international art world are some of the 20th century s greatest masterpieces Beginning in mid 1940s under the aegis of Alfred H Barr Jr works by then little known American artists including Pollock de Kooning Smith Arshile Gorky and Adolph Gottlieb began to enter the Museum s collection These ambitious acquisition initiatives continued throughout the second half of the last century and produced a collection of Abstract Expressionist art with a breadth and depth unrivalled by any museum in the world With an essay by Ann Temkin Abstract Expressionism at The Museum of Modern Art celebrates the Museum s holdings from this epochal moment in the history of art and the institution like no other book

Composing Ambiguity: The Early Music of Morton Feldman Alistair Noble, 2016-05-23 American composer Morton Feldman is increasingly seen to have been one of the key figures in late twentieth century music with his work exerting a powerful influence into the twenty first century At the same time much about his music remains enigmatic largely due to long standing myths about supposedly intuitive or aleatoric working practices In Composing Ambiguity Alistair Noble reveals key aspects of Feldman s musical language as it developed during a crucial period in the early 1950s Drawing

models from primary sources including Feldman's musical sketches he shows that Feldman worked deliberately within a two dimensional frame allowing a focus upon the fundamental materials of sounding pitch in time Beyond this Feldman's work is revealed to be essentially concerned with the 12 tone chromatic field and with the delineation of complexes of simple proportions in crystalline forms Through close reading of several important works from the early 1950s Noble shows that there is a remarkable consistency of compositional method despite the varied experimental notations used by Feldman at this time Not only are there direct relations to be found between staff notated works and grid scores but much of the language developed by Feldman in this period was still in use even in his late works of the 1980s

American Artists Engage the Built Environment, 1960-1979 Susanneh Bieber, 2023-07-31 This volume reframes the development of US American avant garde art of the long 1960s from minimal and pop art to land art conceptual art site specific practices and feminist art in the context of contemporary architectural discourses Susanneh Bieber analyzes the work of seven major artists Donald Judd Robert Grosvenor Claes Oldenburg Robert Smithson Lawrence Weiner Gordon Matta Clark and Mary Miss who were closely associated with the formal aesthetic innovations of the period While these individual artists came to represent diverse movements Bieber argues that all of them were attracted to the field of architecture the work of architects engineers preservationists landscape designers and urban planners because they believed these practices more directly shaped the social and material spaces of everyday life This book's contribution to the field of art history is thus twofold First it shows that the avant garde of the long 1960s did not simply develop according to an internal logic of art but also as part of broader sociocultural discourses about buildings and cities Second it exemplifies a methodological synthesis between social art history and poststructural formalism that is foundational to understanding the role of art in the construction of a more just and egalitarian society The book will be of interest to scholars working in art history architecture urbanism and environmental humanism

The Power of Art Caroline Campbell, 2023-10-12 To read most histories of art you might be forgiven for supposing that great artists are superhuman and the knowledge of different movements periods and styles is essential to truly appreciate art It's time to look at art in a new way THE POWER OF ART delves into the stories behind remarkable acts of creation in fifteen global cities at pivotal moments of artistic brilliance It shows how art is an integral part of our daily lives embedded in the very fabric of our existence From the enduring wonders of ancient Babylon to the menacing pastel architecture of contemporary Pyongyang eminent curator Caroline Campbell intertwines the stories of artists with the broader social cultural and political landscapes of their time In each vivid episode Campbell reveals how art in all its forms is a testament to humanity's inventiveness and ingenuity it has served our fundamental needs for shelter sustenance spirituality pleasure order and community But it can also evoke envy anger greed and even be used as a means of social control Spanning thousands of years of creativity THE POWER OF ART will ignite your imagination and open your eyes to the art that surrounds us whether it be a painting in a gallery a public sculpture or an everyday object with hidden beauty

The Transcendental Sublime in Contemporary Art Nandita Mukand, 2015-04-21 Essay from the year 2013 in the subject Art Miscellaneous grade A course BA Hons Fine Arts language English abstract In Robert Rosenblum's book *Modern Painting and the Northern Romantic Tradition: Friedrich to Rothko* Rosenblum traces a continuing tradition in art from the 18th century to the 1960s which centres upon the term sublime In the past many artists amongst them Caspar David Friedrich, Turner, Wassily Kandinsky, Mark Rothko, Barnett Newman and theorists amongst them Edmund Burke, Immanuel Kant, Jean-François Lyotard have explored the transcendental nature of the sublime in art Today we live in an age that prides itself on the loss of illusion Ideas of transcendence in art are often seen as sentimental and viewed with skepticism The word sublime seems to be stripped down to the shock of the new often centered on horror This essay explores how the transcendental sublime is situated in contemporary art The transcendental sublime will here refer to how looking at a work of art can enable one to be transported going beyond the given limits to a place of accessing one's spiritual side Art that has used shock and terror to achieve a sense of the sublime will be excluded from this discussion **William Carlos Williams, Frank O'Hara, and the New York Art Scene** Paul R. Cappucci, 2010 To explore the depth of the literary connection between William Carlos Williams and Frank O'Hara particularly in relation to their American roots this book examines their distinct responses to Abstract Expressionism or the New York School artists Although an outsider to this movement Williams paid attention to its increasing popularity and ultimately valued its importance in the progression of American art As an insider O'Hara functioned as a vital critic and promoter of this group Foremost among the artists discussed here are Jackson Pollock, Robert Motherwell and David Smith Examining Williams's and O'Hara's verse in light of these artists provides readers with a unique vantage point for understanding their appeal to these avant-garde poets as well as for appreciating this moment in American art history It reveals a unique amalgamation of ideas about art and poetry that redefined creativity in mid-twentieth-century America *Art Theory* Robert Williams, 2009-03-09 ART THEORY ART THEORY Art Theory is a first-class introduction to the subject revealing an unusual historical range, a command of diverse and often difficult ideas and a natural flair for seeing the point of art and of theory Robert Williams has written a book I will keep on my shelf for rereading and I look forward to further works by him John Haldane in *The Art Book* Art Theory Second Edition is a unique survey of Western thought about art from ancient times to today This lucid and lively narrative geared to the needs of the general reader and beginning students consists of six chapters covering the major periods of Western art history: Antiquity and the Middle Ages, the early modern period, Renaissance and Baroque, the Enlightenment, the nineteenth century, early twentieth-century modernism and postmodernism This new edition expands the original to include more in-depth coverage of contemporary art Wide-ranging and exceptionally balanced in its analysis Art Theory relates theory to the practice as well as to the intellectual and cultural historical currents of each period This new edition is an indispensable read for students and art lovers alike *Art Journal*, 1960 **Lee Krasner** Ellen G. Landau, Lee Krasner, Jeffrey D. Grove, 1995-09-15 In addition

to providing the essential facts concerning each of Lee Krasner's artistic works the author has written interpretive essays analyzing major groups of works and their relationship to Krasner's life and oeuvre **ARTnews**, 1954 The Sublime Simon Morley, 2010 Sumario The unrepresentable Transcendence Nature Technology Terror The uncanny Altered states Bookforum, 2005 **Art in America** Frank Jewett Mather, Frederic Fairchild Sherman, 2006-08 *Street Seen* Lisa Hostetler, 2009 This in depth and generously illustrated look at six postwar photographers along with a selection of their predecessors and contemporaries captures a unique and pivotal moment in American photographic history World War II and its aftermath ushered in a new era of artistic expression Abstract Expressionism film noir Beat poetry and the New Journalism are often considered responses to war's shocking realities Creative photographers responded to the same situation with images that broke the rules of conventional photographic technique *Street Seen* a companion volume to an exhibition highlights six photographers who were prominent during and immediately following the war Lisette Model's unflinching look at the urban environment Louis Faurer's portraits of eccentrics in Times Square Ted Croner's haunting night images Saul Leiter's evocative glimpses of daily life William Klein's graphic confrontational style and Robert Frank's documentation of American ideals gone awry these and other beautifully reproduced photographs communicate the emotional resonance of everyday life in postwar America An essay by Lisa Hostetler explores the aesthetic revolution that took place after the war and reveals the principles of spontaneity and subjective interpretation that guided these photographers as they sought to make sense of new realities A timeline brief biographies and bibliography are also included in this valuable compilation of the mid century's most influential photography **Choice**, 2008 **Art, Context and Criticism** John Kissick, 1996 Employing a chronological approach this beautifully illustrated text can serve as a brief one semester introduction to art history or as a core text in art appreciation **Action/abstraction** Maurice Berger, 2008 Drawing on recent critical historical and biographical work this lavishly illustrated book offers a sharp new focus on a pivotal art movement It also presents an extensive commentary on the two most influential critics of postwar American art Clement Greenberg and Harold Rosenberg whose powerful views shaped perceptions of Abstract Expressionism and other contemporary art movements In one essay Norman L Kleeblatt traces the influence of Abstract Expressionism into the mid 1970s and examines its connection to subsequent art styles Other essays range from the literary and intellectual culture of New York during that period and an analysis of sculpture and representation to a discussion of Jewish issues in relation to postwar American Art In addition the book features a magisterial essay by eminent critic Irving Sandler and a copiously illustrated cultural timeline by Maurice Berger **BOOK JACKET** **Circa 1958** Roni Feinstein, 2008 A critical shift took place in contemporary American art in the late 1950s Long dominated by Abstract Expressionism the field took a new turn as two major alternatives appeared on the scene Assemblage Art and Post Painterly Abstraction Together these new styles redirected the course of American art *Circa 1958* Breaking Ground in American Art explores this decisive moment in art

history by gathering for the first time ever 62 works by 57 artists working during this brief but important period Based on the exhibition of the same name organized by the Ackland Art Museum at The University of North Carolina at Chapel Hill this volume presents essays on the artists and their work by exhibition curator and Art in America corresponding editor Roni Feinstein With an introductory essay by Ackland Director Emily Kass Circa 1958 features insight on groundbreaking challenging and significant works some rarely before exhibited by dozens of American artists that helped forge a new era in contemporary American art
