Services For Sale Purchasing Health And Human Services:

The Privatization of Human Services Harold W. Demone, Margaret Gibelman, 2013-11-09 No reader of professional journals agency reports or the daily press needs to be told that Professors Gibelman and Demone have assembled a volume of contributions to a very lively debate The two words highlighted privatization and contracting sum up the prescriptions of many for social service reform and the anxieties of others who question the new strategies The pace and scale of developments over the past 2 decades sometimes allows us to forget that the subject has a long history Privatization may be thought of as involving public turnover to the private sector of responsibility for services it has been delivering Or it may be the public sector arranging for the private sector to take on new services that the public wishes to encourage or for which it accepts responsibility The transaction usually involves public funds The historical story however is not one of public temporal primacy
