Rational Foundations Of Democratic Politics:

Rational Foundations of Democratic Politics Albert Breton, 2011 Wittgenstein and Democratic Politics Lotar Rasiński, Anat Biletzki, Leszek Koczanowicz, Alois Pichler, Thomas Wallgren, 2024-10-28 This volume demonstrates how Wittgenstein's philosophy can illuminate our understanding of politics and open new ways of conceptualizing democratic theory and practice Its focus is on language reason and communication as central to identifying present confusions in our understanding of democracy The book seeks to engage Wittgenstein's philosophical insights aiming to go beyond the dichotomous oppositions and conceptual entanglements pervading existing frameworks of social and political theories of democracy Its key topic is the irreplaceable role of dialogue in civic democratic engagement as a condition for the understanding of self and others and hence for political life in which reason has a role Indeed it presents concrete examples of how Wittgenstein can be constructively applied to current political discourse Part I of the volume focuses on the general idea of applying Wittgenstein's philosophy to political and democratic theory and explains the deep and intrinsic relation between Wittgenstein's thought and politics Part II discusses Wittgenstein's concrete concepts as illuminating for understanding selected aspects of democratic politics Part III deals with a possible exchange between Wittgenstein and other political thinkers especially Hannah Arendt Wittgenstein and Democratic Politics will appeal to researchers and advanced students working on Wittgenstein's philosophy political philosophy and democratic theory Critical Readings on the Liberal Democratic Party in Japan Robert Pekkanen, 2018-10-02 This work collects decades of the best published scholarship in English on the unequivocally most successful political party in Japanese history the Liberal Democratic Party the LDP Governing Japan for almost the entirety of the post war period the LDP also has a claim to be the most successful political party in any post war democracy Seminal articles in this collection explore the key aspects of the LDP the party's evolution since its founding in 1955 key facets of the LDP's internal organization including factions and koenkai the LDP in policy making including its relationship with the bureaucracy and interest groups as well as its policy making committee apparatus and party leadership including the premierships of Junichiro Koizumi and Shinzo Abe **Political Theory and Partisan Politics** Edward Bryan Portis, Adolf G. Gundersen, Ruth Lessl Shively, 2012-02-01 Political theorists typically define political action in terms of rational potential rather than conflict and for this reason neglect the partisan nature of political experience This volume redresses this neglect focusing on the interrelated questions of whether the task of political theory is to find some means of containing partisan politics and whether political theory is itself separate from partisan politics Each section of the book corresponds to one of three ways of conceiving the optimal or necessary relationship between political theory and partisan political struggle The first section considers the extent to which partisan politics requires constitutional consensus and the degree to which such a consensus requires correct theoretical underpinnings The second focuses on the compatibility of theoretical deliberation with partisan politics and the third on the possibility that political theory is itself

necessarily a form or means of partisan engagement The end result is a theoretically diverse but focused debate on this important but neglected subject Contributors include William E Connolly Mary G Dietz Adolf G Gundersen John G Gunnell Donald S Lutz Edward Bryan Portis Arlene W Saxonhouse Ruth Lessl Shively and Thomas A Spragens Jr

Zukunftsprobleme der europäischen Wirtschaftsverfassung Wolf Schäfer,2004 **Politische Vierteljahresschrift** ,2004 *The Community of Rights* Alan Gewirth,1996 The Community of Rights provides a detailed explication of the fundamental rights of agency as derived from a single rationally justified principle of morality and develops the contents of economic and social rights as a basic part of human rights A critical alternative to both liberal and communitarian views this authoritative work will command the attention of anyone engaged in the debate over social and economic justice *Theories of Democracy* Ronald J. Terchek,Thomas C. Conte,2000-07-31 Theories of Democracy builds on Robert Dahl s observation that there is no single theory of democracy only theories Beyond the broad commitment to rule by the majority democracy involves a set of contentious debates concerning the proper function and scope of power equality freedom justice and interests In this anthology Ronald J Terchek and Thomas C Conte have brilliantly assembled the works of classical modern and contemporary commentators to illustrate the deep and diverse roots of the democratic ideal as well as to provide materials for thinking about the way some contemporary theories build on different traditions of democratic theorizing The arguments addressed in Theories of Democracy appear in the voices of authors who have championed influential theories concerning the opportunities and dangers associated with democratic politics In this collection Terchek and Conte have selected excerpts not as a means for promoting a particular way of looking at democracy but rather they have wisely chosen works that will enable students to carry on an informed discourse on the meaning and purposes of democratic principles and practices Theories of Democracy is a must for every student of democracy s past present and future **Das Geld und die Freiheit** Henry Méchoulan,1992 Contemporary World Politics Francis James Brown,1939 **Journal of Economic Literature** ,2004 *Critical Theory and the Science of Management* Ph. van Engeldorp Gastelaars,1990 Workshop on Political Reform and Charter Change in the Philippines ,2005 The Moral Foundations of United States Constitutional Democracy James H. Democracy's Deep Roots Steffen Schneider,2010-04-09 Does the democratic nation state remain a legitimate regime form in the current age of globalization Sceptical assessments of the nation state s legitimacy and outright crisis diagnoses prevail in the academic literature especially in the contributions of public opinion researchers Democracy s Deep Roots uses a novel text analytical approach to probe this topical question Drawing on a comparative study of legitimation discourses in the quality press of four Western democracies Switzerland Germany Britain and the United States it shows that the levels and democratic foundations of public support for the nation state and its core institutions are surprisingly robust There is little

evidence for the fully fledged erosion of legitimacy or for a transformation of its foundations in the public spheres of Western democracies The book also identifies a number of discursive mechanisms that explain this finding and suggests an analytical frame work for future research into the communicative dimension of legitimation processes Book Jacket **J.
