Re Entering The Sign Articulating New Russian Culture:

Re-entering the Sign Ellen E. Berry, Anesa Miller-Pogacar, 1995 *Re Entering the Sign* brings together an array of perspectives from contemporary Russian scholars and artists on the radical cultural changes that have accompanied the collapse of familiar social political and economic structures in the former Soviet Union. The essays and artistic manifestoes offer a variety of responses to the intense cultural questioning that resulted from a remarkable historical period as former Soviet society reentered both its own historical conversations as well as larger global discussions about culture. The collection was conceived at an international conference on language and the arts, Language Consciousness and Society, whose organizers aimed to initiate dialogue within an international community of scholars and artists to open a public arena for the confluence of new voices including native voices long denied open access to the public sphere in their own country. The concerns raised in these essays continue to provoke debate in contemporary Russian culture. Russian luminaries include Mikhail Epstein and Arcady Dragomoshchenko on topics such as Russian postmodernism, the state of contemporary artistic culture, comparisons of Soviet literature with new Russian literature and underground cinema. The book will appeal to students and scholars of comparative literature and film, to cultural critics interested in cross and trans cultural approaches, and to theorists of the contemporary avant garde. Ellen E. Berry is Associate Professor of English and Director of Women's Studies, Bowling Green State University, and author of *Curved Thought and Textual Wandering: Gertrude Stein's*

Postmodernism. Anesa Miller-Pogacar is Assistant Professor of Russian, Bowling Green State University. **The Cambridge Companion to Modern Russian Culture** Nicholas Rzhevsky, 1998. Russia is a dominant force in the world whose culture has been shaped by its unique position on the margins of both East and West. As Russia faces new cultural challenges from outside its national boundaries, this volume introduces Russian culture in all its rich diversity, including the historical conditions that helped shape it and the arts that express its highest achievements. Newly commissioned essays by leading scholars explore language, religion, geography, ideological structures, folk ethos, and popular culture, literature, music, theatre, art, and film. A chronology and guides to further reading are also provided. The Companion offers both historical orientation for the central processes of Russian culture and introductory surveys of the arts in their modern context. Overall, the volume reveals for students, academic researchers, and all those interested in Russia, the dilemmas, strengths, and complexities of the Russian cultural experience.

Re-entering the Sign Ellen E. Berry, Anesa Miller-Pogacar, 1995. Russian artists and critics attest to the cultural changes emerging since the fall of the Soviet Union. *Studia Philologica Slavica* Gerhard

Birkfellner, 2006. **Voices from the Void** Sally Dalton-Brown, 2000. Liudmila Petrushevskaia is one of the best known writers in Russia today, recognized for her versatility as a dramatist, scriptwriter, and author of harrowing contemporary stories and even fairy tales. Acclaimed for her shocking portraits of the pain and loss that distinguish the life of women in Russia and the old Soviet Union, Petrushevskaia has also created texts notable for their scandalous humor and vibrant

plasticity of form This study analyses her use of genres within the context of an overall description of her oeuvre Her texts deal with stories struggling to be told even in today's Russia Her characters are all storytellers but the truths they attempt to express are often too terrible to be voiced aloud and their tales are ultimately told from within a vast silence that threatens to engulf the narrative

Historical Dictionary of the Russian Federation Robert A. Saunders, 2019-09-20 Straddling Europe and Asia the Russian Federation is the largest country in the world and home to a panoply of religious and ethnic groups from the Muslim Tatars to the Buddhist Buryats Over the past 40 years Russia has experienced the most dramatic transformation of any modern state The second edition of Historical Dictionary of the Russian Federation provides insight into this rapidly developing country This volume includes coverage of pivotal movements events and persons in the late Soviet Union 1985-1991 and contemporary Russia 1991-present This second edition of Historical Dictionary of the Russian Federation contains a chronology an introduction and an extensive bibliography The dictionary section has over 700 cross-referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent resource for students researchers and anyone wanting to know more about Russia

Komiks José Alaniz, 2011-02-03 Jos Alaniz explores the problematic publication history of komiks an art form much maligned as bourgeois mass diversion before during and after the collapse of the USSR with an emphasis on the last twenty years Using archival research interviews with major artists and publishers and close readings of several works Komiks Comic Art in Russia provides heretofore unavailable access to the country's rich but unknown comics heritage The study examines the dizzying experimental comics of the late Czarist and early revolutionary era caricature from the satirical journal Krokodil and the postwar series Petia Ryzhik the Russian Tintin Detailed case studies include the Perestroika era KOM studio the first devoted to comics in the Soviet Union post-Soviet comics in contemporary art autobiography and the work of Nikolai Maslov and women's comics by such artists as Lena Uzhinova Namida and Re I Alaniz examines such issues as anti-Americanism censorship the rise of consumerism globalization e.g. in Russian manga the impact of the internet and the hard-won establishment of a comics subculture in Russia Komiks have often borne the brunt of ideological change thriving in summers of relative freedom freezing in hard winters of official disdain This volume covers the art form's origins in religious icon making and book illustration and later the immensely popular lubok or woodblock print Alaniz reveals comics vilification and marginalization under the Communists the art form's economic struggles and its eventual internet migration in the post-Soviet era This book shows that Russian comics as with the people who made them never had a normal life

Flesh to Metal Rolf Hellebust, 2018-08-06 That science-fiction future in which technology would make everything very good or very bad has not yet arrived From our vantage point at least no age appears to have had a deeper faith in the inevitability and imminence of such a total technological transformation than the early twentieth century Russia was no exception from the introduction In the Soviet Union it seems armoring oneself against the world did not suffice

it was best to become metal itself In his engaging and accessible book Rolf Hellebust explores the aesthetic and ideological function of the metallization of the revolutionary body as revealed in Soviet literature art and politics His book shows how the significance of this modern myth goes far beyond the immediate issue of the enthusiasm with which the Bolsheviks welcomed such a symbolic transfiguration and that of our own uneasy attraction to the images of metal flesh and machine men Hellebust's literary examples range from the famous Pasternak's Doctor Zhivago to the forgotten early Soviet proletarian poets To these he adds a mix of non Russian references from creation myths to comic book superheroes medieval alchemy to Moby Dick He includes readings of posters sculpture and political discourse as well as cross cultural comparisons to revolutionary France industrial age America and Nazi Germany The result is a fascinating portrait of the ultimate symbols of dehumanizing modernity as refracted through the prism of utopian humanism
