Uncanny Bodies Scott T. Smith, José Alaniz, 2019-11-27 Superhero comics reckon with issues of corporeal control And while they commonly deal in characters of exceptional or superhuman ability they have also shown an increasing attention and sensitivity to diverse forms of disability both physical and cognitive The essays in this collection reveal how the superhero genre in fusing fantasy with realism provides a visual forum for engaging with issues of disability and intersectional identity race ethnicity class gender and sexuality and helps to imagine different ways of being in the world Working from the premise that the theoretical mode of the uncanny with its interest in what is simultaneously known and unknown ordinary and extraordinary opens new ways to think about categories and markers of identity *Uncanny Bodies* explores how continuums of ability in superhero comics can reflect resist or reevaluate broader cultural conceptions about disability The chapters focus on lesser known characters such as Echo Omega the Unknown and the Silver Scorpion as well as the famous Barbara Gordon and the protagonist of the acclaimed series *Hawkeye* whose superheroic uncanniness provides a counterpoint to constructs of normalcy Several essays explore how superhero comics can provide a vocabulary and discourse for conceptualizing disability more broadly Thoughtful and challenging this eye opening examination of superhero comics breaks new ground in disability studies and scholarship in popular culture In addition to the editors the contributors are Sarah Bowden Charlie Christie Sarah Gibbons Andrew Godfrey Meers Marit Hanson Charles Hatfield Naja Later Lauren O Connor Daniel J O Rourke Daniel Pinti Lauranne Poharec and Deleasa Randall Griffiths

Secrecy and Silence in the Research Process Roisin Ryan-Flood, Rosalind Gill, 2013-05-13 Feminist research is informed by a history of breaking

silences of demanding that women's voices be heard recorded and included in wider intellectual genealogies and histories. This has led to an emphasis on voice and speaking out in the research endeavour. Moments of secrecy and silence are less often addressed. This gives rise to a number of questions: What are the silences, secrets, omissions and political consequences of such moments? What particular dilemmas and constraints do they represent or entail? What are their implications for research praxis? Are such moments always indicative of voicelessness or powerlessness? Or may they also constitute a productive moment in the research encounter? Contributors to this volume were invited to reflect on these questions. The resulting chapters are a fascinating collection of insights into the research process, making an important contribution to theoretical and empirical debates about epistemology, subjectivity and identity in research. Researchers often face difficult dilemmas about who to represent and how, what to omit and what to include. This book explores such questions in an important and timely collection of essays from international scholars.

The RE/Search Guide to Bodily Fluids Paul Spinrad, 1994. Everything you ever wanted to know about healthy bodily functions and excreta including constipation, the evolution of toilet paper, farting, vomit and many other engrossing topics all recounted in as amusing and light-hearted a manner as one could hope for. The Art of Living Dominic Johnson, 2017-09-16. Across a series of 12 in-depth interviews with a diverse range of major artists, Dominic Johnson presents a new oral history of performance art. From uses of body modification and physical extremity to the creation of all-encompassing personae to performance pieces lasting months or years, these artists have provoked and explored the vital limits between art and life. Their discussions with Johnson give us a glimpse of their artistic motivations, preoccupations, processes and contexts. Despite the diversity of art forms and experiences featured, common threads weave between the interviews: love, friendship, commitment, death and survival. Each interview is preceded by an overview of the artist's work and the volume itself is introduced by a thoughtful critical essay on performance art and oral history. The conversational tone of the interviews renders complex ideas and theoretical propositions accessible, making this an ideal book for students of theatre and performance as well as for artists, scholars and general readers.

[A Bright Red Scream](#) Marilee Strong, 1999-10-01. I highly recommend [A Bright Red Scream](#) because it's beautifully written and so candid. Amy Adams, star of HBO's *Sharp Objects* in *Entertainment Weekly*. Self-mutilation is a behavior so shocking that it is almost never discussed. Yet estimates are that upwards of eight million Americans are chronic self-injurers. They are people who use knives, razor blades or broken glass to cut themselves. Their numbers include the actor Johnny Depp, *Girl Interrupted* author Susanna Kaysen and the late Princess Diana. Mistakenly viewed as suicide attempts or senseless masochism, even by many health professionals, cutting is actually a complex means of coping with emotional pain. Marilee Strong explores this hidden epidemic through case studies, startling new research from psychologists, trauma experts and neuroscientists and the heartbreaking insights of cutters themselves who range from troubled teenagers to middle-age professionals to grandparents. Strong explains what factors lead to self

mutilation why cutting helps people manage overwhelming fear and anxiety and how cutters can heal both their internal and external wounds and break the self destructive cycle *A Bright Red Scream* is a groundbreaking essential resource for victims of self mutilation their families teachers doctors and therapists *Body Art/performing the Subject* Amelia Jones,1998 With great originality and scholarship Amelia Jones maps out an extraordinary history of body art over the last three decades and embeds it in the theoretical terrain of postmoderism The result is a wonderful and permissive space in which the viewer can wander Moira Roth Trefethen professor of art history Mills College **Headpress Guide to the Counter Culture** Temple Drake,2004 An indispensable sampling of the vast assortment of publications which exist as an adjunct to the mainstream press or which promote themes and ideas that may be defined as pop culture alternative underground or subversive Updated and revised from the pages of the critically acclaimed Headpress journal this is an enlightened and entertaining guide to the counter culture including everything from cult film music comics and cutting edge fiction by way of its books and zines with contact information accompanying each review *Bob Flanagan* Bob Flanagan,1993-01-01 Cultural studies Bob Flanagan is both a poet and a performance artist In this volume s deeply confessional interviews Bob details his sexual practices and his extraordinary relationship with long term partner and Mistress photographer Sheree Rose He tells how frequent near death encounters modified his concepts of gratification and abstinence reward and punishment and intensified his masochistic drive The most extreme narratives are infused with humor honesty and self reflective irony Bob s sharp intelligence and lack of pretense belie a deep commitment to deciphering philosophical issues regarding the body power sex life and death

Do Androids Sleep with Electric Sheep? Johannes Grenzfurthner,2009 As the official artists collective representing Vienna at the S o Paulo Art Biennial in 2002 the monochrom group Johannes Grenzfurthner G nther Friesinger and Daniel Fabry invented an artist called Georg Paul Thomann and carried off the exhibition as a very elaborate prank The trio aided by philosopher Thomas Ballhausen brings that same sense of the cutting edge and the carnivalesque to this collection exploring erotica science fiction and technology A bracing mix of literary forms the book shows why the fantasy genre is especially suited to the investigation of the transgressive realms of sexuality and pornography Here questions of science research and technologization are examined along with the complex surrounding urbanism artificiality and control or the loss of control Provocative and penetrating Do Androids Sleep with Electric Sheep reveals a wealth of depictions of the future and shows the many ways in which they also address the present
