**Reaching the Gifted Underachiever** Patricia L. Supplee, 1990      **Reaching the Gifted Underachiever** Patricia Supplee, 1990      **Hochbegabt und trotzdem schlecht in der Schule? Forderung und Diagnostik von Minderleistern** Annika Beschoner, 2012-07 Das Phänomen der Minderleistung stellt sowohl für die Diagnose als auch für die Beratung hochbegabter Kinder und Jugendlicher eine außerordentliche Herausforderung dar. Das folgende Buch soll anhand einer Projektarbeit zum Thema Forderdiagnostik hochbegabter Minderleister Hilfestellung in der Forderung der Diagnostik und im Umgang mit hochbegabten Kindern und Jugendlichen geben      Selbstkonzepte im Grundschulalter Frank Hellmich, 2011-06-01 Die Forderung von Selbstkonzepten gilt als ein wichtiges Ziel im Zusammenhang mit dem Bildungsauftrag der Grundschule. Die Realistische Einschätzung eigener Stärken und Schwächen ist dabei eine wichtige Einflussgröße im Hinblick auf die fachliche wie auch berufliche Kompetenzentwicklung von Kindern im Grundschulalter. Das Buch liefert eine Zusammenschau theoretischer Modelle empirischer Ergebnisse und pädagogischer Konsequenzen in Bezug auf die Entwicklung von Selbstkonzepten bei Kindern im Alter von ca. sechs bis zehn Jahren. Neben einem Überblick über neuere Befunde aus der empirischen entwicklungsbezogenen Lehr-Lernforschung werden insbesondere Schlussfolgerungen für die pädagogische Praxis in den Handlungsfeldern des Grundschulbereichs zur Diskussion gestellt. Folgende Themen stehen dabei im Vordergrund: Entwicklung des Selbstkonzepts und impliziter Fähigkeitstheorien, geschlechtsspezifische Unterschiede in der Entwicklung des Selbstkonzepts, Einflussfaktoren auf die Entwicklung des Selbstkonzepts sowie Diagnose und Forderung von Selbstkonzepten in der Grundschule      International Handbook of Giftedness and Talent K. *Nurturing Talent in High School* Laurence J. Coleman, 2005 This is a fascinating chronicle of the lives of academically talented and gifted adolescents living in a special residential public high school The author who lived as a resident in the school's dormitory provides rare insights on how environment and potential talent interact inside a school to impact identity talent and advanced development By exploring the special context of the school this volume shows how the combination of rigorous academics and living with other talented children can create a high energy environment that accelerates the pace of development although many students may be unprepared to keep pace they do examines in depth issues of equity and excellence status and identity depicts a high school where equity and excellence co exist and offers an explanation for this unusual phenomenon in American high schools offers valuable information that can be applied to a variety of gifted and talented programs and other specialized learning environments and exemplifies a distinctive dedication to qualitative research methods setting a new standard for conducting such research Handbook of Parenting Marc H.

Bornstein, 2005-02-16 Completely revised and expanded from four to five volumes this new edition of the Handbook of Parenting appears at a time that is momentous in the history of parenting Parenting and the family are today in a greater state of flux question and redefinition than perhaps ever before We are witnessing the emergence of striking permutations on the theme of parenting blended families lesbian and gay parents and teen versus fifties first time moms and dads One cannot but be awed on the biological front by technology that now not only renders postmenopausal women capable of childbearing but also presents us with the possibility of designing babies Similarly on the sociological front single parenthood is a modern day fact of life adult child dependency is on the rise and parents are ever less certain of their own roles even in the face of rising environmental and institutional demands that they take increasing responsibility for their offspring The Handbook of Parenting concerns itself with different types of parents mothers and fathers single adolescent and adoptive parents basic characteristics of parenting behaviors knowledge beliefs and expectations about parenting forces that shape parenting evolution genetics biology employment social class culture environment and history problems faced by parents handicap marital difficulties drug addiction and practical concerns of parenting how to promote children's health foster social adjustment and cognitive competence and interact with school legal and public officials Contributors to the Handbook of Parenting have worked in different ways toward understanding all these diverse aspects of parenting and all look to the most recent research and thinking in the field to shed light on many topics every parent wonders about Each chapter addresses a different but central topic in parenting each is rooted in current thinking and theory as well as classical and modern research in that topic each has been written to be read and absorbed in a single sitting In addition each chapter follows a standard organization including an introduction to the chapter as a whole followed by historical considerations of the topic a discussion of central issues and theory a review of classical and modern research forecasts of future directions of theory and

research and a set of conclusions Of course contributors own convictions and research are considered but contributions to this new edition present all major points of view and central lines of inquiry and interpret them broadly The Handbook of Parenting is intended to be both comprehensive and state of the art As the expanded scope of this second edition amply shows parenting is naturally and closely allied with many other fields      *Listening to Able Underachievers* Michael Pomerantz, Kathryn Ann Pomerantz, 2013-01-11 This book provides a new contribution to raising attainment in secondary schools with specific reference to able underachievers who are currently achieving C grades or less when they could be getting As Standards are depressed each time a single able underachiever demonstrates a competence that is below his or her real potential It lowers morale in that the progress of the whole school is reduced proportionately in line with the able pupils who aren't achieving their real potential and resources are wasted every time these pupils start misbehaving or creating problems in school This is a new and innovative approach which is based on discussions with the pupils themselves and incorporates not just the usual basic subjects but also the creative areas of the curriculum and the wider community as a whole Head teachers senior managers teachers and students indeed all who are interested in raising standards and ensuring that pupils achieve their full potential will find this book to be an excellent resource      *Talented Children and Adults* Jane Piirto, 2021-09-03 This third edition of the widely popular Talented Children and Adults Their Development and Education has been revised to include the most up to date information on talent development Written by a nationally recognized author in the field of gifted education this textbook explores the factors that encourage talent development from birth through adulthood with specific chapters focusing on children from birth to age 2 elementary and middle school students high school and college students and adults Talented Children and Adults includes information for identifying talented students developing programs for these students identifying creativity and creating appropriate curricula The book also addresses counseling and guidance for talented students as well as underserved populations Each chapter begins with a vignette and case studies from students and educators in the field are included at the end of each chapter This book is a must read for anyone who works with talented children and adults      *The Nature and Nurture of Giftedness* David Yun Dai, 2010-07-11 With unprecedented scope and vision Dr Dai systematically redefines giftedness and proposes a new framework for the field of gifted education He identifies nine essential tensions revolving around three core questions What do we know about the respective roles of natural ability environment and experiences and personal effort in talent development How do we identify the gifted and talented and study the process of gifted and talent development And finally how do we define the aims of gifted education and promote excellence Sure to be a milestone in the field this book Scrutinizes some of the deeply held assumptions about the nature of giftedness and explains why a contextual developmental approach is a more viable alternative to the traditional psychometric approach Takes stock of the past defines the present and looks into the future in terms of understanding high potential and educating youths Tackles tensions between the gifted child and talent

development movements and between excellence and equity and responds to the elitism criticisms in a constructive and comprehensive way     **Handbook of Parenting: Children and parenting** Marc H. Bornstein,1995 V 1 Children and parenting v 2 Biology and ecology of parenting v 3 Status and social conditions of parenting v 4 Applied and practical parenting     Able Underachievers Diane Montgomery,2000-10-30 This text is a discussion of how to deal with able underachievers in education It concludes that teaching and learning methods need to be modified to become learning oriented and centred rather than subject oriented and teacher centred     *Teaching Children Science* Joseph Abruscato,1992

Shore,2004 Perceived to be academically successful highly able or gifted children often appear not to require much teacher assistance and subsequently are given less attention However these students do have needs and this book seeks to explain what these are and ways in which teachers can begin to meet them even when working in difficult circumstances with little support This revised second edition includes chapters on identification of high ability and the impact of that identification unrecognised ability teaching methods underachievement student teacher relations organisation of learning gender and culture general advice to teachers parental and community involvement     *El-Hi Textbooks & Serials in Print, 2005* ,2005     **Exceptional Child Education Resources** ,1992     *Adolescence* ,1993     **International Handbook of Research and Development of Giftedness and Talent** Kurt Heller,Franz J.
