Reading and Learning Across the Disciplines Mary-Jane McCarthy,Joan Rasool,Caroline Banks,1993-01-01     *Reading and Learning Across the Disciplines* Mary-Jane McCarthy,Rasool,1997-01-01     Reading Across the Disciplines Kathleen T. McWhorter,2004-04 Reading Across the Disciplines has been a popular textbook with instructors whose students do not require an abundance of skill instruction and who teach college reading through the use of readings from across the disciplines To prepare students for the expectations of higher education Kathleen McWhorter uses high interest readings from a variety of academic sources and provides concise reading skills with immediate practice for reinforcement Discipline specific reading skills offer tips for reading and learning within the particular discipline so students learn content as well as strategy     **Reading Across the Disciplines** Karen Manarin,2022-05-03 Reading Across the Disciplines offers a collection of twelve essays detailing a range of approaches to dealing with students reading needs at the college level Transforming reading in higher education requires more than individual faculty members working on SoTL projects in their particular fields Teachers need to consider reading across the disciplines In this collection authors from Australia and North America teaching in a variety of disciplines explore reading in undergraduate courses doctoral seminars and faculty development activities By paying attention to the particular classroom and placing those observations in conversation with scholarly literature they create new knowledge about reading in higher education from disciplinary and cross disciplinary perspectives Reading Across the Disciplines demonstrates how existing research about reading can be applied to specific classroom contexts offering models for faculty members whose own research interests may lie elsewhere but who believe in the importance of reading     **Literacy Learning Clubs in Grades 4-8** Heather Kenyon Casey,2017-04-03 Literacy learning clubs are highly motivating small group collaborations that can improve tweens and teens academic achievement support their social emotional development and increase their enjoyment of reading and writing This book explains the research basis for the author s approach and offers practical instructions for implementation in English language arts social studies science and mathematics classrooms illustrated with detailed case examples Links to the Common Core State Standards are identified and multimodal methods and new literacies emphasized throughout User friendly features include end of chapter reflection questions and suggested activities The Appendix provides reproducible planning forms and handouts that can be downloaded and printed in a convenient 8 1 2 x 11 size     **Handbook of Research on Applying Universal Design for Learning Across Disciplines: Concepts, Case Studies, and Practical Implementation** Fovet, Frederic,2021-01-22 Universal design for learning UDL has been hailed for over a decade as a revolutionary lens that allows campuses to shift their efforts to create inclusive environments In recent years UDL has gone beyond the field of disability and been explored with regards to international and indigenous students There is now a sizable body of literature that details the benefits of implementing UDL in higher education as well as a number of emerging studies examining the strategic challenges of

developing UDL across institutions There is however still a relative paucity of research discussing the transformation of instruction or assessment in concrete terms Therefore there is a necessity for research and information on UDL that has already been implemented in classrooms and the practical examples of what this process of transformation looks like The Handbook of Research on Applying Universal Design for Learning Across Disciplines Concepts Case Studies and Practical Implementation offers practical examples of UDL having successfully been embedded in courses within various disciplines and classroom formats as well as across the undergraduate and graduate sectors The chapters provide case studies and concrete examples of what the UDL reflection on practice might look like in specific faculties and departments While highlighting UDL in areas such as educational technology student engagement assignment design and inclusive education this book is ideally intended for inservice and preservice teachers administrators teacher educators higher education professors and leaders practitioners researchers academicians and students interested in the integration of UDL into strategic academic plans Teaching K-12 Transdisciplinary Literacy Enrique A. Puig, Kathy S. Froelich, 2021-09-14

Accessible and comprehensive this text introduces a transdisciplinary framework for literacy instruction in grades K 12 This cutting edge volume addresses the need for literacy instruction that crosses disciplines to provide students with a skillset that is not constrained or siloed but rather knowledge that students can apply to existing and emerging fields The text begins with a clear theoretical understanding of literacy instruction delves into practical aspects of select instructional practices by grade level and expands to the creation of schoolwide Multi Tiered Systems of Support to ensure a continuous improvement system The authors inviting and innovative approach walks through real world pathways for meaningful and inclusive literacy practices at distinct grade levels and includes authentic examples that show what the successful implementation of a K 12 transdisciplinary framework looks like Covering key topics such as MTSS RtI Professional Communities of Practice national and state standards this book supports pre service ELA teachers literacy coaches reading specialists and administrators and is ideal for courses in literacy instruction and content area literacy Academic Challenges California State University, 1984

*Climate Change Education Across Disciplines K-12* Lauren Madden, 2025-02-15 Climate change is one of the greatest challenges humanity has ever faced One of the most effective ways to combat climate change is education In New Jersey standards to support teaching and learning about climate change were introduced for children of all ages beginning in 2022 In this edited volume experts from across the state offer strategies suggestions advice and vignettes to support educators as they begin to implement climate change instruction in their classrooms With a foreword by our state s First Lady Tammy S Murphy it also includes a scientific perspective on the effects of climate change in New Jersey the history of climate change education in the US and perspectives from colleagues in other states who are also beginning to adopt instructional practices to address this important topic Content Area Reading Richard T.
