College Rankings Near Me:

Rankings and the Reshaping of Higher Education Ellen Hazelkorn, 2015-03-23 University rankings have gained popularity around the world and are now a significant factor shaping reputation. This second edition updates Ellen Hazelkorn's first comprehensive study of rankings from a global perspective drawing in new original research and extensive analysis. It is essential reading for policymakers, managers, and scholars.

Breaking Ranks Colin Diver, 2022-04-12 Some colleges will do anything to improve their national ranking. That can be bad for their students and for higher education. Since U.S. News World Report first published a college ranking in 1983, the rankings industry has become a self-appointed judge declaring winners and losers among America's colleges and universities. In this revealing account, Colin Diver shows how popular rankings have induced college applicants to focus solely on pedigree and prestige while tempting educators to sacrifice academic integrity for short-term competitive advantage. By forcing colleges into standardized best college hierarchies, he argues, rankings have threatened the institutional diversity, intellectual rigor, and social mobility that is the genius of American higher education. As a former university administrator who refused to play the game, Diver leads his readers on an engaging journey through the mysteries of college rankings, admissions, financial aid, spending policies, and academic practices. He explains how most dominant college rankings perpetuate views of higher education as a purely consumer good, susceptible to unidimensional measures of brand value and prestige. Many rankings, he asserts, also undermine the moral authority of higher education by encouraging various forms of distorted behavior, misrepresentation, and outright cheating by ranked institutions. The recent Varsity Blues admissions scandal, for example, happened in part because affluent parents wanted to get their children into elite schools by any means necessary. Explaining what is most useful and important in evaluating colleges, Diver offers both college applicants and educators a guide to pursuing their highest academic goals, freed from the siren song of the best college illusion. Ultimately, he reveals how to break ranks with a rankings industry that misleads its consumers, undermines academic values, and perpetuates social inequality.

Like Nobody's Business Andrew C. Comrie, 2021-02-23 How do university finances really work? From flagship public research universities to small private liberal arts colleges, there are few aspects of these institutions associated with more confusion, myths, or lack of understanding than how they fund themselves and function in the business of higher education. Using simple, approachable explanations supported by clear illustrations, this book takes the reader on an engaging and enlightening tour of how the money flows. How does the university really pay for itself? Why do tuition and fees rise so fast? Why do universities lose money on research? Do most donations go to athletics? Grounded in hard data, original analyses, and the practical experience of a seasoned administrator, this book provides refreshingly clear answers and comprehensive insights for anyone on or off campus who is interested in the business of the university: how it earns its money, how it spends it, and how it all works.

Transforming the Urban University Richard M. Freeland,2019-03-25 In Transforming the Urban University Richard M Freeland reviews how Northeastern University in Boston historically an access oriented private urban university serving commuter students from modest backgrounds and characterized by limited academic ambitions and local reach transformed itself into a selective national and residential research university Having served as president during a critical decade in this transition Freeland recounts the school s efforts to retain key features from Northeastern s urban history an emphasis on undergraduate teaching and learning a curriculum focused on preparing students for the workplace its signature program of cooperative education and its broad involvement in the life of the city while at the same time raising admission standards recruiting students on a regional and national basis improving graduation rates expanding opportunities for research and graduate education and dramatically improving its U S News ranking Freeland situates the Northeastern story within the evolving context of urban higher education as well as broader trends among American universities during the second half of the twentieth century He documents the way Northeastern maintained its historic values while making innovative use of modern marketing techniques to meet the competitive conditions of the academic marketplace He shows how Northeastern rejected the standard model of the modern research university and instead reinvented itself as a new kind of urban university making excellence in the undergraduate experience its top priority stressing practice oriented education and research and emphasizing the academic benefits of its urban setting as well as the importance of contributing to the well being of its host city In chronicling Northeastern s recovery from what the school s trustees called a near death experience Freeland challenges the conventional narrative of what a university must do to achieve top tier national status

Piece to Text on the Monument and One: Letters with the International Body Managers Kiyoun Kim,2018-08-17 The aims of this book is clear and straightforward It was motivated to convert an inhumane or insipid experience with the various sources of global ranking into the kind of humanly and cultural experience within our daily lifestyle Their outlook from presentation is masked with the number purely and perhaps through a myriad of complicated data or ranking information The concept or self identification within the experience or exposure would be less substantial or hard to get palpable My attempt to improve this
