Alan Moore. It's 2019 and America is ruled over by a billionaire reality TV star. Its media is owned by a transnational class of the shameless and the depraved. And its people have been silently robbed of their wealth, their dignity, and their democracy. In this brave new world, going to see a superhero movie counts as activism, and arguing with the other serfs on social media is political engagement. BUT EVERYTHING'S FINE as long as you never ever ask yourself who makes money from the ticket sales and the ratings or who owns Twitter. It's 2019 and Jarrett Kobek has done the only thing a dissident American novelist can do in those circumstances: he's joined the party and written a fantasy novel about an immortal fairy queen and a shadowy billionaire philanthropist sheikh called Dennis.

Hilarious provocative and unmissable *Only Americans Burn in Hell* is the only novel for our certifiably insane times
