Could It Be Otherwise? Lois André-Bechely, 2013-10-11 Parents who wish to choose schools for their children must have more than a desire for different or better they need detailed knowledge of the processes and practices that will give them access to schools of choice This book vividly contrasts the experiences of a diverse group of urban parents choosing their children's schools with school choice policies from voluntary integration mandates to the No Child Left Behind Act Lois André Bechely carefully uncovers the race and class based inequities these policies sustain documenting the way parents themselves become complicit in the historical inequalities of schooling This book exposes how educational institutions are making this so and provokes new thinking about how public school choice could be implemented in more equitable and democratic ways

A New Deal for Teachers Curtis Johnson, 2021-03-05 Teachers fully in charge of what matters for student and school success is now a movement growing steadily in nearly half the states of the U S According to a national survey most teachers in America are unaware that this is a professional option And because most thinking is about real school it is apparently not safe for even scholars to talk about teachers being in charge Nearly every book diagnoses the problem then defaults to a conventional remedy like chasing good principals This book is aimed at raising the teacher powered movement's visibility making it safe to talk about teachers in charge of schools showing how this arrangement erases the talent drain now plaguing the schools and offering evidence that students do better in these schools than they do in the conventional system The book outlines how the movement could get bigger faster And the massive institutional resistance to change that slows its progress And unlike most books the author sees teachers unions as part of the solution

*Chicken Soup for the Teenage Soul The Real Deal School* Jack Canfield, Mark Victor Hansen, 2012-09-25 School It's frustrating it's boring it's embarrassing But it's also thought provoking challenging and full of possible friends And until you turn 18 like it or not it's just about your whole life So what's the deal Chicken Soup for the Soul knows that school is more than classes and tests It's also a social scene filled with cliques clubs and life changing decisions or so it seems this week It's where you meet your best friends and run into your worst enemies And it's an opportunity to figure out what you want to do whether it's kick a soccer ball play the trombone or act in a play Sometimes it's overwhelming and confusing but don't worry it's like that for everyone That's what the stories in this book are all about They're from real teens and they're about the bizarre embarrassing and sometimes triumphant things that really happened to them And they're here to give you some perspective on everything that goes down at your school and outside of it too Put that together with weird facts cool graphics fun advice and quizzes designed to help you figure out who you are and what you're up to and you've got the real deal on school full of all the laughter tears and daily drama that life is all about
