Time to Think Small Todd Myers, 2022-11-01 This call to climate action examines ways we can leverage the growing power of smartphones and other technologies to become effective environmental stewards to protect threatened species reduce the risk from climate change and stop ocean plastic Personal technologies are creating what the

Environmental Defense Fund calls a transformational shift in how we address environmental problems Time to Think Small explores how these brand new approaches are already playing a huge role in winning some of the most difficult and important environmental struggles of our day from fighting climate change to ensuring drinkable water for everyone to saving endangered animals to keeping plastic out of the ocean Learn how these technologies magnify and multiply the power everyone has as individuals to save our environment and how this tremendous power is not only growing but also has the huge benefit of being independent of sudden shifts in political leadership Drawing on two decades of environmental policy and a career working with endangered species mixed with his previous career in tech Myers looks at the different ways we can be empowered to find environmental solutions Time to Think Small reminds me of the first words spoken on the moon about small steps and giant leaps Todd Myers does in fact describe the giant strides from accumulated small steps that will help solve THE biggest long term problem facing humanity today If Big Government won't act WE CAN in our own small ways Donald Kroodsma Author of Birdsong for the Curious Naturalist The future of environmental stewardship depends on technology and innovation Todd Myers is a national leader on environmental policy and technology and understands how to create solutions that sidestep political gridlock John Connors former Microsoft CFO A much needed analysis of how we can solve complex global environmental problems by applying human ingenuity and why every step matters along the way Benji Backer President American Conservation Coalition Addressing climate change can be such a polarizing issue Myers's book has found a way to cut right through that with practical applicable actions that everyone can take to make a difference Kevin Wilhelm CEO Sustainable Business Consulting While the positions taken by Todd Myers may be disconcerting to an old school environmentalist such as myself his voice is one we need to hear in the conversation about climate change Myers makes a compelling argument that thinking small stimulates creativity and that nimble creative approaches can play a crucial role in achieving sustainability John S Farnsworth PhD Author of Nature Beyond Solitude Notes from the Field

Nest Thermostat Prices: Bestsellers in 2023 The year 2023 has witnessed a remarkable surge in literary brilliance, with numerous captivating novels captivating the hearts of readers worldwide. Lets delve into the realm of bestselling books, exploring the captivating narratives that have captivated audiences this year. The Must-Read : Colleen Hoover's "It Ends with Us" This heartfelt tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover expertly weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can succeed. Nest Thermostat Prices : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This intriguing historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids captivating storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Discover the Magic : Delia Owens "Where the Crawdads Sing" This evocative coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens spins a tale of resilience, survival, and the transformative power of nature, entrancing readers with its evocative prose and mesmerizing setting. These top-selling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of engaging stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a masterful and gripping novel that will keep you guessing until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
