Private Worlds:

Scholarly World, Private Worlds Karl Dietrich Fezer, 2001-12-24 BLUE INK Review STARRED REVIEW Scholarly World Private Worlds Thinking Critically About Science Religion and Your Private Beliefs Karl D Fezer Xlibris 434 pages paperback 24 99 9781401034146 Reviewed March 2014 Informal logic is a discipline that examines the validity of the arguments we encounter in everyday discourse from political speeches to editorials to posts on social media Karl D Fezer's work is nothing less than a tour de force of informal logic This important book investigates under what conditions our beliefs are warranted and the limits of the methods by which we derive them The author is not concerned with validating or debunking any particular worldview religious or scientific but with examining the grounds on which we form the views that we do in fact hold The book's first part discusses the distinction between the views we harbor in our inmost hearts and their extension into the social realm where we encounter a multiplicity of views different from our own In the second part Fezer presents good reasons why we might doubt the beliefs we hold In his third section he discusses methods by which we might form views that are worthy of being called rational The final section covers the differences between science and religion and the limitations inherent in attempts to reconcile competing worldviews Fezer also contributes to the debate around teaching Creationism in schools He makes an argument for limiting the curriculum to accounts of the natural world that do not introduce supernatural principles However Fezer is not anti religion and he discusses both religious and humanistic viewpoints neutrally The author notes that he is attempting to fill a void in university liberal arts curricula As such the book has the structure of a textbook complete with questions for further study in an appendix However it is written in crisp readable prose Readers who aren't intimidated by the textbook style will find a cogent forceful presentation that is likely to challenge his or her convictions in a non threatening and highly impressive manner *The Private Worlds of Marcel Duchamp* Jerrold E. Seigel, Professor Jerrold Seigel, 1995-01-01 This is an examination of the work of Marcel Duchamp and of the important place that it has in the foundations of 20th century art and culture **Method in Ancient Philosophy** Jyl Gentzler, 1998 Method in Ancient Philosophy brings together fifteen new specially written essays by leading scholars on a broad subject of central importance It is characteristic of human beings that they direct their activities by reasoning Methods of reasoning even toward the same ends vary Self conscious reflection on the methods of reasoning marks the beginning of philosophy in the West examination of how the ancient Greeks reasoned and how they thought about methods of reasoning helps us to see how they came to hold the views they did and how we have come to think as we do For the views of the ancients have had a considerable influence upon our own assumptions about the demarcations between different kinds of enquiry and the sorts of methods that are appropriate for them The aims of the volume are thus both exegetical and philosophical Most of the essays focus on Socrates Plato or Aristotle but earlier and later ancient philosophy is brought into the picture by essays on Eleatic and Epicurean thought *Catholic World*, 1896 *The Phoenix Years* Madeleine O'Dea, 2016-08-24 Amidst all the chatter

about China lies this rock of a book a magnificent memoir history from the very core of modern Chinese society and history It is a wonderful thing where the essential book and the delightful book are as in this case the one thing Let no one speak of China who has not read *The Phoenix Years* Tom Keneally author of *Australians* *The Phoenix Years* tells the riveting story of China's rise from economic ruin to global giant in the four decades since the country started opening to the world in 1978 This remarkable narrative is informed and illuminated by another one running beneath its surface the story of the country's emerging artistic avant garde and the Chinese people's ongoing struggle for freedom of expression By following the personal stories of nine contemporary Chinese artists *The Phoenix Years* shows how China's rise unleashed creativity thwarted hopes and sparked tensions between the individual and the state that continue to this day It relates the amazing years of self discovery and hope in the 1980s which ended in the disaster of the Tiananmen Square massacre Following that tragedy comes the story of China's meteoric economic rise of the opportunities that emerged and the difficult compromises artists and others have to make to be citizens in modern China Journalist and foreign correspondent Madeleine O Dea has been an eyewitness for over 30 years to the rise of China the explosion of its contemporary art and cultural scene and its citizens long struggle for free expression Over that time she has known many of the key players some of whom are now international art stars Their stories tell the history of their country At once a fascinating and accessible account of the birth of modern China and a moving chronicle of decades of courageous political resistance and cultural activism *The Phoenix Years* is vital reading for anyone interested in China today
