## Privileged To Kill:

*The Morality of the Laws of War* Marcela Prieto Rudolph, 2023 The Morality of the Laws of War examines the modern landscape of the ethics of war Rudolph assesses the conflicting theories on the legality of just and unjust combatants While doing this she proposes an alternative morality of war proceeding from the inescapable fact that regulating war is always a significant moral compromise

*Never Kill a Cop* B. Robert Anderson, 2009-11-19 Lieutenant RC Frane and Sergeant Greta Rogers struggle in the search for the murder of Quincy May When Peg Wilson a member of their police team is murdered the investigation takes on heavy personal efforts Killing a cop affects the entire police force A prime suspect disappears only to find a bad ending after a flight to London Scotland Yard links up with Frane as they try to piece together the motive for the killings Even a member of the peerage becomes involved Every inquiry leads to more confusion Fortunately the philosophic meanderings of Leonides Andros owner of the Sand Box restaurant and the street smarts of John Pentram add to their fund of knowledge As Frane resounds from his feelings of guilt over the loss of a team member all the evidence falls into place

*Debating Targeted Killing* Tamar Meisels, Jeremy Waldron, 2020 Known terrorists are often targeted for death by the governments of Israel and the United States Several thousand have been killed by drones or by operatives on the ground in the last twenty years Is this form of killing justified when hundreds or thousands of lives are possibly at risk at the hands of a known terrorist Is there anything about it that should disturb us Ethically sound and practical answers to these questions are more difficult to come by than it might seem Renowned political theorists Jeremy Waldron and Tamar Meisels here defend two competing positions on the legitimacy of targeted killing as used in counterterrorism strategy in this riveting and essential for and against book The volume begins with a joint introduction briefly setting out the terms of discussion and presenting a short historical overview of the practice what targeted killing is and how it has been used in which conflicts and by whom It then hones in on killings themselves and the element of targeting The authors tackle difficult and infinitely complex subjects for example the similarities and differences between targeted killing of terrorists and ordinary killings in combat and they ask whether targeted killing can be regarded as a law enforcement strategy or as a hybrid between combat and law enforcement They compare the practice of targeted killing with assassination and the use of death squads And they consider the likelihood that targeted killing has been or will be abused against insurgents criminals or political opponents Meisels analyzes the assassination by Israeli operatives of nuclear scientists working for regimes hostile to Israel Meisels and Waldron carefully consider whether this sort of killing can ever be justified in terms of the danger it in theory averts The conclusions drawn are at once as surprising as they are insightful cautioning us against a world in which targeted killing is the norm as it proliferates rapidly This is essential reading not only for students of political and war theory and military personnel but for anyone interested in or concerned by the future of targeted killing

Frasch, 2000     *From Lynch Mobs to the Killing State* Charles J. Ogletree, Austin Sarat, 2006-05 Situates the linkage between race and the death penalty in the history of the U S Since 1976 over forty percent of prisoners executed in American jails have been African American or Hispanic This trend shows little evidence of diminishing and follows a larger pattern of the violent criminalization of African American populations that has marked the country s history of punishment In a bold attempt to tackle the looming question of how and why the connection between race and the death penalty has been so strong throughout American history Ogletree and Sarat headline an interdisciplinary cast of experts in reflecting on this disturbing issue Insightful original essays approach the topic from legal historical cultural and social science perspectives to show the ways that the death penalty is racialized the places in the death penalty process where race makes a difference and the ways that meanings of race in the United States are constructed in and through our practices of capital punishment From Lynch Mobs to the Killing State not only uncovers the ways that race influences capital punishment but also attempts to situate the linkage between race and the death penalty in the history of this country in particular the history of lynching In its probing examination of how and why the connection between race and the death penalty has been so strong throughout American history this book forces us to consider how the death penalty gives meaning to race as well as why the racialization of the death penalty is uniquely American     The Scots Revised Reports John Rankine, 1898     The American Decisions John Proffatt, Abraham Clark Freeman, 1879     **Laws of the State of Maryland** Maryland, 1894 Includes extraordinary and special sessions     **The encyclopædic dictionary** Robert Hunter, 1903
