Problem Of The Criterion Studies In Epistemology Cognitive Theory:

Bibliografisch repertorium van de wijsbegeerte, 2000 **Choice**, 1995 **Epistemological Theory in Classical Chinese Philosophy** Jana S. Rošker, 2024-11-26 This book offers a profound exploration of the epistemological frameworks that have influenced Chinese intellectual history from ancient times through the Song Dynasty's Neo Confucianism. It provides a nuanced analysis of how knowledge systems within Chinese culture developed and interacted with each other across different historical epochs. By examining classical texts and philosophical movements, Rošker brings to light the unique approaches to knowledge and understanding in the Chinese tradition, setting them against the backdrop of Western epistemological thought. Translated by Marko Ogrizek, the book serves as a vital resource for anyone keen to understand the dynamic interplay of ideas that bridge the East and West, linking ancient wisdom with modern perspectives. The Problem of the Criterion Robert P. Amico, 1993 This work is a full scale historical and analytical study of the problem of criterion. The author devotes six chapters to this problem, tracing its history from the ancient sceptic Sextus Empiricus and following its path to Michel de Montaigne, Cardinal D J Mercier, Nicholas Rescher, and Roderick Chisolm. The work argues that Sextus' ancient problem is different from its modern characterisation and it also offers a dissolution to both problems and a critique of meta epistemological scepticism. He shows that the influential views of Rescher and Chisolm are unable to handle the problem adequately. **Explanatory Solutions to Skeptical Problems** Kevin McCain, 2025-01-12 Phenomenal Explanationism is a powerful new theory of epistemic justification that combines an explanationist conception of evidential support with an appearance based or phenomenal conception of evidence. According to PE, epistemic justification is a matter of what best explains our evidence, which ultimately consists of appearances. It is a complete internalist theory of epistemic justification that delivers on the promises of other appearance based theories while avoiding their pitfalls. In *Explanatory Solutions to Skeptical Problems*, Kevin McCain expands his previous work on the internalist dimension of the theory to cover external world skepticism. He also demonstrates how PE offers solutions to a host of other perennial skeptical problems, including the problem of the criterion, the regress of justification, memory skepticism, and inductive skepticism. The promise that PE displays in responding to these problems makes it plain that it is a viable conception of epistemic justification worthy of careful consideration and also that accepting internalism more generally doesn't leave one without reasonable responses to skeptical problems. **Proceedings and Addresses of the American Philosophical Association** American Philosophical Association, 1995 List of members in v 1 *New Directions in Attribution Research* J. Kidd, 2018-12-07 Published in 1976, *New Directions in Attribution Research* is a valuable contribution to the field of Social Psychology. *The Problem of the Criterion* Robert Amico, 1993-08-17 Selected by CHOICE as an Outstanding Academic Book for 1995. Shope,1999 Shope presents a unified perspective on meaningfulness spanning such varied topics as the meaningfulness of linguistic expressions and conventional signs Freud s conception of the meaningfulness of various mental phenomena and instances of behavior a person s meaning to do something meaning in the arts and even life s having a meaning Shope s perspective is based upon a constitutive analysis of what it is for one item to represent another Criticizing the views of philosophers who attempt to analyze such representing in causal terms or merely in epistemological terms he shows that a successful analysis needs to invoke both types of considerations **Illusions of Paradox** Richmond Campbell,1998 Campbell philosophy Dalhousie U Halifax argues

that feminist and naturalized epistemology are not incompatible despite appearances and that combining them allows a coherent and politically useful account of the objectivity of value He draws on conceptual resources already present in the two approaches to construct a coherent epistemology that reinforces and extends the present feminist critiques of androcentric science and the fact value dichotomy but is uncompromising in its realist implications Annotation copyrighted by Book News Inc Portland OR *Soviet Studies in Philosophy* ,1968 **The Philosopher's Index** ,2008 Vols for 1969
