Index of Conference Proceedings British Library. Document Supply Centre,1999 **Latino Educational Leadership** Cristóbal Rodriguez,Melissa A Martinez,Fernando Valle,2018-09-01 Latino Educational Leadership acknowledges the unique preparation and support for both Latinx educational leaders and Latino communities needed throughout the education and policy pipeline While leadership in communities exists for educational purposes this effort focuses on the institutional aspect of Latino Educational Leadership across K 12 schools and university settings The purpose of this book is to create a greater collaborative focus on Latino Educational Leadership by inviting scholarly contributions and insights from both established and up and coming scholars Latino Educational Leadership also advocates for the preparation of all leaders as well as the preparation of Latinx educational leaders to serve Latino communities Our impetus on Latino Educational Leadership primarily stems from the changing demographics of our country As of Fall 2017 Latinx student enrollment in K 12 schools reached an all time high with Latinxs comprising 26.8% of the nation s public school enrollment Postsecondary level Latinx student enrollment has also improved rising from 25% in 2005 to 37% in 2015 Given this growth particularly at the K 12 level there has been an increasing urgency to prepare and support more Latinx educational leaders Their rich cultural and linguistic connections to communities help them more readily understand and meet the needs of Latino students and families Aside from enrollment growth Latinxs have made record strides in postsecondary attainment between 2003-04 and 2013-14 bachelor s degrees more than doubled from 94,644 to 202,412 master s degrees conferred rose from 29,806 to 55,965 and doctoral degrees rose from 5,795 to 10,665 Despite such promising gains concern has not waned over how to best address the challenges this diverse student population continues to face in accessing persisting and matriculating across the P-20 Pipeline There is still work to be done as only 11% of all bachelor s degrees 9% of all master s degrees and 7% of all doctoral degrees were awarded to Latinxs in 2013-14 In particular there is increasing urgency to address how higher education institutions can better prepare develop and retain Latinx leaders and scholars who will serve and meet the needs of Latinx college students to ensure their academic success Thus the purpose of this book is to advance the knowledge related to serving Latino communities and preparing Latinx leaders NTIS Alert ,1999 **Report of the Advisory Committee on Research on Women's Health** United States. Advisory Committee on Research on Women's Health,2001 *Migrant Health Newslines* ,1999 *Health Without Boundaries* ,1998 Emergent Public Health Issues in the US-Mexico Border Region Cecilia Ballesteros Rosales,Scott Carter Carvajal,Jill Eileen Guernsey De Zapien,2017-02-16 US Mexico border region area has unique social demographic and policy forces at work that shape the health of its residents as well as serves as a microcosm of migration health challenges facing an increasingly mobile and globalized world This region reflects the largest migratory flow between any two nations in the world Data from the Pew Research Center shows over the last 25 years there has never been lower than 140,000 annual immigrants from Mexico to the United States with peaks over 700,000 This

migratory route is extremely hazardous due to natural e g arid and hot desert regions and human made barriers as well as border enforcement practices tied to socio political and geopolitical pressures Also reflecting the national interdependency of public health and human services needs during the most recent five year period surveyed the migratory flow between the US and Mexico has equaled that of the flow of Mexico to the US both around 1 4 million persons Of particular public health concern within the US Mexico region of both nations there is among the highest disparities in income education infrastructure and access to health care factors within the World Health Organization s conceptualization of the Social Determinants of Health and among the highest rates of chronic disease For instance obesity and diabetes rates in this region are among the highest of those monitored in the world with adult population estimates of the former over 40% and estimates in some population sub groups for the latter over 20% The publications reflected in this Research Topic all reviewed from experts in the field addressed many of the public health issues in the US Mexico Border Health Commission s Healthy Border 2020 objectives Those objectives broad public health goals used to guide a diverse range of government research and community based stakeholders include Non Communicable Diseases including adult and childhood obesity related ones cancer Infectious Diseases e g tuberculosis HIV emerging diseases particularly mosquito borne illnesses Maternal and Child Health Mental Health Disorders and Motor Vehicle Accidents Other relevant public health issues affecting this region for example environmental health binational health services coordination e g immunization the impact of migration throughout the Americas and globally in this region health issues related to the physical climate access to quality health care discrimination mistreatment and well being acculturative immigration stress violence substance use abuse oral health respiratory disease and well being from a social determinants of health framework are critical areas addressed in these publications or for future research Each of these Research Topic publications presented applied solutions e g new programs technology or infrastructure and or public health policy recommendations relevant to each public health challenge addressed
