Ireland's Great Famine and Popular Politics Enda Delaney, Breandán Mac Suibhne, 2015-11-19 Ireland's Great Famine of 1845-52 was among the most devastating food crises in modern history. A country of some eight and a half million people lost one million to hunger and disease and another million to emigration. According to land activist Michael Davitt the starving made little or no effort to assert the animal's right to existence passively accepting their fate. But the poor did resist. In word and deed they defied landlords, merchants and agents of the state; they rioted for food, opposed rent and rate collection, challenged the decisions of those controlling relief works and scorned clergymen who attributed their suffering to the Almighty. The essays collected here examine the full range of resistance in the Great Famine and illuminate how the crisis itself transformed popular politics. Contributors include distinguished scholars of modern Ireland and emerging historians and critics. This book is essential reading for students of modern Ireland and the global history of collective action. [Record Research](#), 1983

The Encyclopedia of Best Films Jay Robert Nash, 2019-10-23 This all-inclusive A-Z encyclopedia by one of the world's foremost experts on cinema provides comprehensive annotations of the best films produced from 1914 on. The work offers more than 5,000 three to five star entries: three stars good, four stars excellent, five stars masterpiece, and yes, author Jay Robert Nash has viewed every single one of them as well as many more that did not make the cut. In addition to a precis, each film's entry also includes a listing of the cast as well as the key principles involved in production, from the director to the hair stylist. Especially unique to this book is a rating system that helps parents determine whether or not a film is appropriate for their children. Unlike the industry rating system which can be influenced by studio lobbying, Nash objectively evaluates each film and confers upon it one of four recommendations: for viewing, recommended, acceptable, cautionary, and unacceptable. Backmatter includes a list of top films by genre (i.e. animated, drama, sports, mystery, adventure, etc.) as well as an annotated name index listing all persons mentioned along with their dates of birth and death. Rounding out this essential volume for the film buff are over 500 still photos from the author's private collection. **Forthcoming Books**

Rose Army, 2003-12 **The Encyclopedia of Popular Music** Colin Larkin, 2011-05-27 This text presents a comprehensive and up-to-date reference work on popular music from the early 20th century to the present day. [The Essential Rock Discography](#) Martin Charles Strong, 2006 Covers British and American artists and groups including a biography or history and chronological discographical listings in each entry. *R.E.D. Commemorating Gallipoli through Music John Morgan O'Connell, 2017-12-01 This monograph examines the relationship between music and memory as it relates to the Gallipoli Campaign 1915-6. Drawing upon a wide variety of sources in many languages, it explores the multiple ways in which music is employed to remember and to forget, to celebrate and to commemorate a victory on the part of the Central Powers and a defeat on the part of the Allied forces in the

Dardanelles during the First World War 1914 8 Further it argues that commemoration itself can be viewed as an instrument of war In particular it investigates the complex positionality of individual actors during the centennial commemorations of the Gallipoli landings 24 April 2015 where the Australians and the Turks most notably have employed music to reimagine the past both nationalities invoking the Gallipoli spirit tr anakkale ruhu to advance a nationalist agenda and a resurgent militarism through the selective memorialization of an imperial past The book interrogates through music the ambivalent position of minorities With specific reference to the Irish amongst the British and the Armenians amongst the Ottomans it shows how song might serve both to articulate a nationalist defiance and an imperialist consensus during a tumultuous period of irredentism By uncovering the complex pathways of musical transmission it demonstrates through musical analysis how the colonized could become the colonizer in the case of the Irish or a minority might conform to a majority in the case of the Armenians Further the publication looks at the uneasy alliance between the Turks and the Germans It focuses on a German musician as an imperial bandmaster and Germanic entrepreneurs in the recording industry who entertained or who served the German Mission in Istanbul Here it considers by way of musical composition the shared wish on the part of the Germans and the Turks to create a Lebensraum in Asia
