## What does peace mean?

Peace is a word that holds many different meanings. It is a word that can be used in a lot of different ways. The definition of peace is freedom from disturbance, a time of tranquillity when you are not disturbed by anyone or anything. There are also the definitions a time or period in which there is no war, or a war has ended.

## The United Nations

In 1945, representatives from 51 countries around the world met in San Francisco in the United States of America (USA) after the Second World War had ended. The world was left in a mess. There was no longer trust between neighbouring countries and there was no longer any peace. The representatives from each of the 51 countries decided that they must do something to establish peace and so a very important document was signed. The document was made up of four very important agreements. The agreements were:

- To establish international peace and security
- To develop friendly relations among nations based on respect for equal rights
- To achieve international co-operation in solving international problems
- To be a centre for harmonising the action of nations in the promotion of these goals

## The Responsibility

Resolving issues is an essential part  
one of the ways that we can help to spread  
peace around the world. Resolving issues  
may not always be easy and we do  
have to think of many different ways. Some of  
these are:

- to talk
- find common causes of issues with  
those who are different to us
- learn to respect differences. There will  
always be a right answer but working  
together for the common good helps  
to spread freedom and peace.
