## **Seattle University A Century Of Jesuit Education:**

Seattle University Walt Crowley, Brad Reynolds, W. Sullivan, 1991-09-01      The American Jesuits Raymond A. Schroth, 2009-10 Schroth recounts the history of the Jesuits in the United States focusing on the key periods of the Jesuit experience beginning with the era of European explorers some of whom were Jesuits themselves      The Jesuits in Syria: 1625-1683 Mazin Tadros, 2024-07-26 This book examines cross cultural encounters of the Jesuit missionary enterprise in early modern Southwest Asia It analyzes the early mission to Syria paying attention to the key interlocutors of the Jesuits and the many challenges they experienced in their exchanges with other Europeans Ottoman officials and Eastern Christians It demonstrates that there was nominal Muslim Christian dialogue and important relationships formed between the Jesuits and their Christian and Muslim hosts The Jesuits in Syria shows that the Jesuits worked in a very complex environment where competing factions of Europeans European religious Eastern Christians Arab Muslims Turkish officials and Turkish Muslims not to mention renegades played important roles The book examines missionary correspondence and other complementary sources It also contrasts the way that the Jesuits wrote about their efforts internally with how they addressed the same topics in public documents either printed or manuscript It shows that the Jesuits described Islam and Syria in several ways depending on the nature of the sources For internal audiences they wrote of their challenges with Franciscans French and Venetian consular figures and Ottoman officials For the broader public whether in Jesuit colleges or in print they harped on the problems posed by schismatics and Muslims In this way this volume enriches the story of the early modern Mediterranean

**Jesuits, Catholics, and Higher Education in Twentieth-century America** William Patrick S. J. Leahy, 1986      Traditions of Eloquence Cinthia Gannett, John Brereton, 2016-05-25 This groundbreaking collection explores the important ways Jesuits have employed rhetoric the ancient art of persuasion and the current art of communications from the sixteenth century to the present Much of the history of how Jesuit traditions contributed to the development of rhetorical theory and pedagogy has been lost effaced or dispersed As a result those interested in Jesuit education and higher education in the United States as well as scholars and teachers of rhetoric are often unaware of this living 450 year old tradition Written by highly regarded scholars of rhetoric composition education philosophy and history many based at Jesuit colleges and universities the essays in this volume explore the tradition of Jesuit rhetorical education that is constructing a more usable past and a viable future for eloquentia perfecta the Jesuits chief aim for the liberal arts Intended to foster eloquence across the curriculum and into the world beyond Jesuit rhetoric integrates intellectual rigor broad knowledge civic action and spiritual discernment as the chief goals of the educational experience Consummate scholars and rhetors the early Jesuits employed all the intellectual and language arts as contemplatives in action preaching and undertaking missionary educational and charitable works in the world The study pedagogy and practice of classical grammar and rhetoric adapted to Christian humanism naturally provided a central focus of this powerful educational system as part of the Jesuit commitment

to the Ministries of the Word This book traces the development of Jesuit rhetoric in Renaissance Europe follows its expansion to the United States and documents its reemergence on campuses and in scholarly discussions across America in the twenty first century Traditions of Eloquence provides a wellspring of insight into the past present and future of Jesuit rhetorical traditions In a period of ongoing reformulations and applications of Jesuit educational mission and identity this collection of compelling essays helps provide historical context a sense of continuity in current practice and a platform for creating future curricula and pedagogy Moreover it is a valuable resource for anyone interested in understanding a core aspect of the Jesuit educational heritage *John Spellman* John Charles Hughes,2013 **Abundance of Grace** Patricia O'Connell Killen,2000

Yamamura,Kent Koth,2023-07-03 While an increasing number of universities have or are committed to engaging their campuses in their surrounding communities many recognize they lack the strategic focus and resources to maximize and sustain their impact on those communities Place based community engagement provides a powerful way to creatively connect campus and community to foster positive social transformation In developing community engagement strategies most universities and community organizations face significant challenges in deciding who to partner with and why Frequently this leads universities and community organizations to say yes to too many opportunities which significantly limit their ability to pursue long term impact Focusing on an established geographic area can make it much easier to decide where to deploy resources and which partnerships to prioritize and thus increase their ability to form strong and sustainable partnerships that are of greater value to all stakeholders This book presents the emerging model of place based community engagement as a powerful process for attaining more positive and enduring results in their local communities as well as stimulating wider engagement by campus constituencies Drawing upon the concept of collective impact and using data driven decision making place based initiatives build long term partnerships based upon a shared vision Done thoughtfully these place based initiatives have attained impressive results Drawing upon the case studies of five institutions that have implemented place based community engagement initiatives the authors provide guidance on the opportunities challenges

and considerations involved in putting a place based approach into effect By sharing the experiences of these five institutions they describe in detail the routes each took to turn their place based initiatives from concept to reality and the results they achieved
