The Four Lenses of Innovation Rowan Gibson, 2015-03-02 Ever wonder where big breakthrough ideas come from How do innovators manage to spot the opportunities for industry revolution that everyone else seems to miss Contrary to popular belief innovation is not some mystical art that's forbidden to mere mortals The Four Lenses of Innovation thoroughly debunks this pervasive myth by delivering what we've long been hoping for the news that innovation is systematic it's methodical and we can all achieve it By asking how the world's top innovators Steve Jobs Richard Branson Jeff Bezos and many others came up with their game-changing ideas bestselling author Rowan Gibson identifies four key business perspectives that will enable you to discover groundbreaking opportunities for innovation and growth Challenging Orthodoxies What if the dominant conventions in your field market or industry are outdated unnecessary or just plain wrong Harnessing Trends Where are the shifts and discontinuities that will now and in the future provide the energy you need for a major leap forward Leveraging Resources How can you arrange existing skills and assets into new combinations that add up to more than the sum of their parts Understanding Needs What are the unmet needs and frustrations that everyone else is simply ignoring Other books promise the keys to innovation this one delivers them With a unique full color design thought provoking examples and features like the 8 Step Model for Building a Breakthrough The Four Lenses of Innovation will teach you how to reverse engineer creative genius and make radical business innovation an everyday reality inside your organization Rowan Gibson has done a superb job of unpacking what it takes to innovate Philip Kotler S C Johnson Distinguished Professor of International Marketing at the Kellogg School of Management at Northwestern University Can you develop an innovative mind Yes you can And this book is the manual John and Doris Naisbitt authors of China's Megatrends and The Global Game Change An excellent piece of work for practitioners and organizations who seek to have innovation as part of their DNA Camille Mirshokrai Managing Director of Leadership Development and Partner at Accenture Rowan Gibson's The Four Lenses of Innovation will inspire you to think big look afresh at the challenges you face and take bold action to change the world Robert B Tucker author of Driving Growth Through Innovation **Time**, 2008 **Slow Burn** R. Jisung Park, 2025-07-29 How the subtle but significant consequences of a hotter planet have already begun from lower test scores to higher crime rates and how we might tackle them today It's hard not to feel anxious about the problem of climate change especially if we think of it as an impending planetary catastrophe In Slow Burn R Jisung Park encourages us to view climate change through a different lens one that focuses less on the possibility of mass climate extinction in a theoretical future and more on the everyday implications of climate change here and now Drawing on a wealth of new data and cutting edge economics Park shows how climate change headlines often miss some of the most important costs When wildfires blaze what happens to people downwind of the smoke When natural disasters destroy buildings and bridges what happens to educational outcomes Park explains how climate change operates as the silent accumulation of a thousand tiny conflagrations

imperceptibly elevated health risks spread across billions of people pennies off the dollar of productivity fewer opportunities for upward mobility By investigating how the physical phenomenon of climate change interacts with social and economic institutions Park illustrates how climate change already affects everyone and may act as an amplifier of inequality Wealthier households and corporations may adapt quickly but without targeted interventions less advantaged communities may not Viewing climate change as a slow and unequal burn comes with an important silver lining It puts dollars and cents behind the case for aggressive emissions cuts and helps identify concrete steps that can be taken to better manage its adverse effects We can begin to overcome our climate anxiety Park shows us when we begin to tackle these problems locally **The 30**
