Among the many topics covered in the book are: A complete list of what's new in iOS 17 and iPadOS 17; How to create and use Contact Posters; Working with interactive Home screen widgets; Using Live Speech and Personal Voice to assist in communication; Adding animated reactions to video calls; How to use new features in apps like Find My, Freeform, Health, Home, Notes, Reminders, and Safari; Downloading maps for offline use; Information on what each of the built-in apps does; How to use and customize the Lock screen, Control Center, and Home screen; Creating and using Focus modes for enhanced Do Not Disturb settings; Using Handoff to start tasks on one device and then continue them on another; How to search with Spotlight; Making the most of Siri for getting information and performing tasks; Working with keyboards, built-in and external, for text editing, emojis, and more; Sharing almost any content with others in a variety of ways; Special iPad-exclusive features including Stage Manager on iPads with Apple M-series chips; How to communicate using Apple's Messages app; Using the built-in Camera app for photos and videos; Configuring your device's accessibility features, including Live Captions for real-time transcriptions of audio.

**The Digital Reading Condition** Maria Engberg, Ibene Have, Birgitte Stougaard Pedersen, 2022-12-30 This volume offers a critical overview of digital reading practices and scholarly efforts to analyze and understand reading in the mediatized landscape. Building on research about digital reading, born digital literature, and digital audiobooks, *The Digital Reading Condition* explores reading as part of a broader cultural shift encompassing many forms of media and genres. Bringing together research from media and literary studies, digital humanities scholarship on reading and learning, as well as sensory studies and research on multimodal and multisensory media reception, the authors address and challenge print-biased conceptions of reading that are still prevalent in research, whether the reading medium is print or digital. They argue that the act of reading itself is changing and, rather than rejecting digital media as unsuitable for sustained or focused reading practices, they argue

that the complex media landscape challenges us to rethink how to define reading as a mediated practice Presenting a truly interdisciplinary perspective on digital reading practices this volume will appeal to scholars and graduate students in communication media studies new media and technology literature digital humanities literacy studies composition and rhetoric
