From the Ballfield to the Boardroom Brian Goff, 2005-04-30 No one can deny that sports and business are two of the most potent forces in our culture today Sport play and the terms and phrases that define them are engrained in our collective psyche influencing the ways in which we conduct business as a game with rules of engagement tournaments of competition the shame that accompanies defeat and the bragging rights that accrue to the victor The parallels are ubiquitous as the NFL's Bill Parcells stated in a Harvard Business Review article my guess is that the challenges I've faced are not all that different from the ones that executives deal with every day People are people and the keys to motivating them and getting them to perform to their full potential are pretty much the same whether they're playing on a football field or working in an office From the Ballfield to the Boardroom draws from Brian Goff's expertise as a managerial economist to shed new light on the sports business connection Using dozens of examples from across the spectrum of professional and college sports he analyzes the ways in which key decisions are made on the playing fields and locker rooms and applies these lessons to the corporate context From the distinctive leadership styles of legendary coaches Tom Landry Vince Lombardi John Wooden and Bobby Knight among others to such culturally significant developments as the racial integration of Major League Baseball and the meteoric rise of NASCAR Goff draws from the world of sports to provide a solid foundation in the managerial arts including assessing risk and uncertainty conducting market and competitive analysis wooing customers fostering an innovative culture managing information and communication flows and resolving labor disputes The result is an incisive look at the sport of business with practical insights for successful management at all levels of your organization *The Michigan Journal*, 2012

Predicting Major League Baseball Playoff Outcomes Through Multiple Linear Regression Zachary Firsick, 2013 [Predicting Major League Baseball Playoff Probabilities Using Logistic Regression](#) Evan Bittner, 2015 Major League Baseball teams are constantly assessing whether or not they think their teams will make the playoffs Many sources publish playoff probabilities or odds throughout the season using advanced statistical methods These methods are somewhat secretive and typically advanced and difficult to understand The goal of this work is to determine a way to calculate playoff probabilities midseason

that can easily be understood and applied The goal is to develop a method and compare its predictive accuracy to the current methods published by statistical baseball sources such as Baseball Prospectus and Fangraphs *Keep Your Eye on the Game* Michael Ferguson,2017 This study examines 11 years and 26 370 of Major League Baseball s i e MLB game outcomes to test whether distraction through scoreboard watching causes teams to choke under pressure Results indicate that scoreboard watching significantly impacts the probability of winning a game especially in playoff races Specifically teams in a playoff race had a 0 158 lower probability of winning games when the division leader won its game the previous day Consistent with distraction theory the analysis also shows that the distraction effects are 0 224 greater on home teams There is evidence of increased distraction as criticality of games increase When there are fewer than 10 games remaining in a playoff race the impact of a division leader win reduces a team s win probability by 0 243 Changes to league structure reduced win probability by 0 039 for seasons starting in 2012 This involved the addition of a Wild Card team to each league and an increase to the value of winning a division This study helps fill a gap in the literature in relation to research on external factors and their impact on game outcomes If a team can account for factors related to winning a game then it could be possible to gain a competitive advantage over the opposition The findings also have practical applications MLB teams can take initiatives to eliminate distraction and keep players attention on the task at hand surrounding critical games **World Series 2025 Official Championship Book** Skybox Press,2026-01-27 Celebrate the 2025 World Series champion with this limited edition officially licensed collection of original photographs covering the season up through the Fall Classic Relive the unforgettable journey of the 2025 MLB World Series Champions with this stunning officially licensed commemorative book From Opening Day through the final out of the Fall Classic this deluxe hardcover edition captures the triumph heartbreak and glory of an extraordinary season A Collector s Must Have Officially Licensed by Major League Baseball the only hardcover book celebrating the 2025 World Series winners Limited Edition Hardcover beautifully bound and designed for fans and collectors Unforgettable Photography packed with full color action shots behind the scenes candid and iconic World Series moments Complete Season Journey covering the regular season All Star break playoffs and the World Series victory Perfect for Every Fan a timeless keepsake for your bookshelf coffee table or to gift to the baseball lover in your life Own the Ultimate Celebration of a Champion Season Whether you were at the ballpark cheering from home or following every pitch on the go this book lets you relive the magic of your team s unforgettable championship run Produced in limited quantities it s a true collector s item that every fan will treasure for years to come **Baseball Playoff Eliminations** Lawrence William Robinson,1988 *Predicting Yearly Winning Percentage and Playoff List of MLB Teams by Regression Trees* Li-Wen LO,2019 **2023 Mlb Season Celebration** Triumph Books,2022-11-22 This commemorative book provides a visual look at an unforgettable Major League Baseball season Through unique words and images this book takes readers from the opening games in April through the MLB season and playoffs Including full color photographs and profiles of star
